## PLANE SHIP JOINS HUNT FOR AIRMEN

British Aircraft Carrier Eagle Aids Search in Region of Azores

Other Vessels Have Hunted Ocean in Vain For Franco and Companions

Ponta Delgada, Azores, June 25.—The Portuguese gunboat Zaire, after searching for fifty-seven hours for the missing Spanish aviators, reported to-day that there was still no trace of the plane.

The Portuguese mail steamship due to-day from the Madeira Islands and scheduled to leave to-morrow for other islands of the group has been instructed to keep a keen lookout for the missing plane.

London, June 25.—The British aircraft carrier Eagle, bound for Portsmouth from Gibraltar to-day, was ordered by wireless by the Admiralty to divert its course to assist in the search for the four missing Spanish fliers of the Franco plane. Planes leaving the Eagle will be able to cover a wide area once the carrier reaches the Azores.

Capt. Ramon Franco and three companions left Cartagena, Spain, aboard a Dornier Walh seaplane last Friday for the Azores, on the first stage of a flight it was hoped would carry them to New York.

## ONTARIO POLICE HEAD SEES RUM MEN AT WORK

Speedboat Delivers Whisky in Michigan and Returns As He Watches

Windsor, Ont., June 25.—It is possible for rum to run the Detroit River blockade under the bright rays of the afternoon sun, according to Alfred E. Cuddy, deputy commissioner of the Ontario police. He knows, because he saw a demonstration of it yesterday afternoon while he was making a last-minute inspection of the liquor export docks at Riverside.

A speedboat carrying the average cargo of fifty cases of whisky darted out from the dock and in a straight line ran for the United States shore. It does not take long for one of those fifty-mile-an-hour rum-runners to cross a mile of Detroit River, unload in Michigan and return, for more, as the deputy learned. ## STRONGHEART, DOG MOVIE HERO, DIES

Hollywood, Cal., June 25.—"Strongheart," dog hero of the movies, will face the camera no more. The famous canine star passed away yesterday at the home of his owner and friend, Miss Jane Murlin. He was thirteen years old. A complication of diseases, following an operation several months ago, caused his death. Trained in the Berlin police kennels, "Strongheart" served with the German Red Cross during the World War.

## BIG BALANCE OF CANADA-U.S. TOURIST TRADE IS DOMINION'S

Washington, June 25 (By Kenneth Clark, Canadian Press Staff Correspondent).—The balance of the tourist trade between Canada and the United States stands high in favor of the Dominion. Estimates put out by the Department of Commerce show United States residents spent \$237,000,000 in Canada during 1928, while Canadians who visited the United States spent \$86,000,000.

During the year, 3,645,453 United States automobiles crossed the Canadian frontier for "touring purposes," about three-fourths of the cars going into Ontario and about one-eighth into Quebec. Using a computation worked out by the Dominion Bureau of Statistics, the Commerce Department figures the average expenditure in Canada by motorists who obtained sixty-day permits at \$156.40. The gross expenditure of United States motorists in Canada is computed to have been \$167,384,000.

The department's figures for Canadian cars touring in the United States in 1928 show the number of cars as 519,871 and the total \$59,700,000.

## STATEMENT ON NEW NAVAL CONFERENCE

London, June 25.—Premier Ramsay MacDonald announced to-night that he had talked with both Brig.-Gen. Charles G. Dawes, United States Ambassador to Great Britain, and Hugh S. Gibson, United States Ambassador to Belgium, and that he hoped that before many days they would be in a position to make a definite announcement of how negotiations for naval disarmament would be conducted.

He told a Labor reception he would put it no stronger at present than that he was hopeful. Among matters concerning which he saw possibility of definite announcement was where a conference was to be held and the objects to be aimed at.

## SURVEYING FOR FOURTH UNIT AT JORDAN RIVER

Over 35,000 Horsepower Will Be Available When B.C.E.R. Project Is Complete

New Distributing Station at Bay and Government Streets to Be Ready in July

Engineers are in the field making surveys preliminary to a start on the fourth power unit at Jordan River, it was announced to-day at the engineering department of the B.C. Electric Railway.

The flume has been completed and the way is now clear for the project which will give an additional 13,500 horsepower. This will involve the raising of the dams at Portney and installation of new generators.

When the fourth unit has been completed the total horsepower available at Jordan River will be between 35,000 and 40,000.

Sufficient power will be available to supply the needs of Victoria until 1932, when the company will have to turn to other power sources.

The new power distributing station which is being erected for the B.C. Electric Railway at the corner of Government and Bay Streets will be completed next month when the cut-over from the Rock Bay plant will take place, it was announced to-day. Excellent progress is being made on the building by the general contractors, Parfitt Bros. Limited.

This building, together with the electrical machinery which is being cut from the dock and in a straight line ran for the United States shore. It does not take long for one of those fifty-mile-an-hour rum-runners to cross a mile of Detroit River, unload in Michigan and return, for more, as the deputy learned. The round trip (Concluded on Page 3)

## Vancouver Asks Lower Power And Gas Rates

Vancouver, June 25.—An application that electric light, power and gas rates in the areas of Point Grey and South Vancouver be made uniform with charges in the former Vancouver city area will be made by civic authorities shortly to the B.C. Electric Railway Company. It was decided by the civic finance committee to-day.

It was also intimated that when rates in the three areas are on a parity a request will be made to the company for a general reduction in rates for the three commodities throughout the whole of the amalgamated city.

## GREAT HAILSTORM IN DURBAN DISTRICT

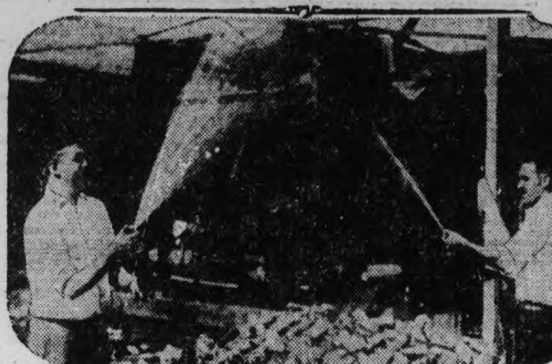

Durban, South Africa, June 25.—The most destructive hailstorm in the history of this district occurred last night, causing damage which some estimate at \$500,000 (about \$2,500,000).

A few minutes after the hail started, it lay eight inches deep on the streets of Durban, some of the stones being four inches in diameter.

## McKELVIE TO HEAD NEW BUREAU OF PUBLIC RELATIONS

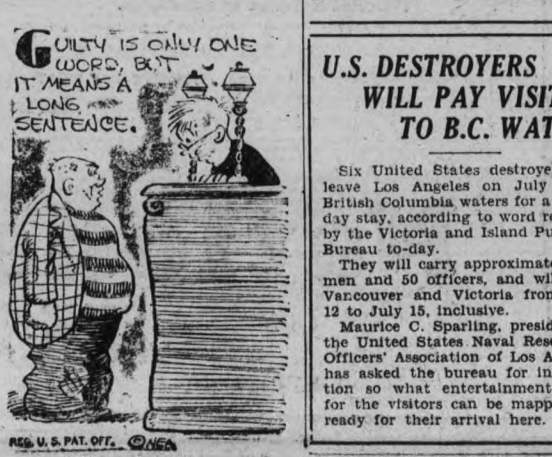

Vancouver Newspaper Man Will Organize New Government Department

B. A. McKelvie, Vancouver newspaperman and a member of the press gallery of the B.C. Legislature for the last few years, has been appointed Director-General of the Bureau of Public Relations, it was learned at the Parliament Buildings to-day.

This is a new office created by Premier Tolmie and the cabinet. Its function will be to keep the government and its activities presented in the right light to the people of the Province. Every big railway, financial and commercial corporation now has its bureau of public relations to present the corporation, its activities, purposes and personnel in a sympathetic and understanding way to the country through the newspapers and the British Columbia Government, has decided to have a department attached to a government can serve an equally useful purpose, it was explained.

Mr. McKelvie is a skilled newspaperman and press agent, having acted as publicity director for a number of Vancouver organizations and individuals at various times. He is a leader in the Native Sons movement and is an authority on early British Columbia, having written numerous articles and a couple of books on the past of this province. He will sever his connection at the end of this month with the Vancouver newspaper on which he is employed and take up his residence in Victoria, where he will organize the new department with headquarters at the Parliament Buildings.

## IMPORTANT MOVES BY MACDONALD

British Government Asks Dominions If They Will Sign World Court Clause

British Ministry Also Reported Planning Diplomatic Relations With Russia

London, June 25 (Canadian Press Cable).—Important negotiations affecting Empire affairs are reported to have been initiated by the new Labor Government of Great Britain. It has communicated with all the Dominions in an effort to gain agreement on the signing of the optional clause of the world court statutes, under which questions of international law would be submitted to the Permanent Court of International Justice at The Hague. The London Labor newspaper, The Daily Herald, to-day also said the Labor Government had informed the Dominion Governments it proposed to resume diplomatic relations with Russia.

The world court matter requires agreement of all the Dominions and it is expected this can be secured without much trouble. Australia hitherto was the only Dominion reluctant to sign the optional clause, and it is understood this reluctance has now been removed to a great extent. In any event Premier MacDonald is hopeful of being able to show complete Empire agreement on joining the world court when he visits the League of Nations Assembly at Geneva in September.

## MACLEAN HERE ON FARM LOANS

Of 2,200 Applications, 750 Have Been Recommended By Boards

Dr. J. D. MacLean, Federal Commissioner of Farm Loans, arrived in Victoria yesterday and will remain in the Province about a week.

During his stay in British Columbia he will confer with members of the British Columbia branch of the board and will take a number of the districts in which loans have been applied for with a view of determining the nature and the adequacy of the security offered.

On MacLean's return to Ottawa the reports of the provincial boards will be considered and a decision made on the applications.

Up to June 15 out of a total of 2,200 applications in all the provinces, 750 have been recommended for loans by the local boards. The loans will average over \$2,000 each. There are at present four provinces where boards are actively functioning, while Quebec will probably have its preliminary arrangements completed this week.

## Message on Russia Received at Ottawa From Great Britain

Ottawa, June 25.—A communication from the British Government with respect to resumption of trade relations between Great Britain and Russia has, it is understood, been received at the Department of External Affairs here. No information with respect to the dispatch is obtainable at the department.

## UNIVERSITY OF B.C. SOON TO HAVE SCHOOL OF COMMERCE

Vancouver, June 25.—A school of commerce as a department of the University of British Columbia, the subject of memorials from a number of business and social service organizations, is being realized as a result of a meeting of the board of governors last night, when it was decided to appoint Joseph F. Day, M.A., associate professor of economics and commerce.

This means, according to President L. S. Kilnick, that the work of instruction in commerce will be started with the opening of the 1929-30 session, and that students who then enroll for this course may take their degree four years later.

It is the intention of the board to appoint a second professor for this work next year and so gradually build up what in time will be a separate department of commerce, meanwhile operating under the department of economics, with which, said Dr. Kilnick, the new department would be most closely allied.

## COVENTRY GOES TO ENGLAND FOR B.C. GOVERNMENT

Former Member Who Paved Way For Premier Made Market Commissioner

Will Sail on Friday to Stimulate Sale of B.C. Fruit in Old Country

Hon. T. G. Coventry, the man who stepped down in Saanich to pave the way for Premier Tolmie in his home constituency, has been rewarded for his political unselfishness after a year of patient waiting.

Official announcement will be made within the next few days that Mr. Coventry has been added to the list of commissioners created by the Government and his duties will carry him to London where he will do his best to build up markets for British Columbia products, particularly Okanagan fruit.

LEAVES FRIDAY

Mr. Coventry will leave Victoria Friday. Although the early rush for Government jobs by those who thought they were entitled to some reward has ended up the Government is still besieged with applicants. The absence of Mr. Coventry's name from the list of appointments had been the source of much surprise in view of the fact that he gave up a fairly safe seat in the Legislature. It is understood that while his main duties will be to establish a market in England for Okanagan fruit, it will direct attention to other British Columbia products as well.

Mr. Coventry now steps into a position which he had frequently urged should be created when he sat in the Legislature. It is understood that while his main duties will be to establish a market in England for Okanagan fruit, it will direct attention to other British Columbia products as well.

## TIBET EXPLORER VISITING HERE

Lieut.-Col. Frederick Bailey Now in City From Sikkim, India

Lieut.-Col. Frederick and the Hon. Mrs. Bailey of Sikkim, India, reached Victoria yesterday afternoon and are spending some time in Canada before sailing for Great Britain.

Lieut.-Col. Bailey has been identified with the Indian political department for twenty-five years and has been stationed at Sikkim, which lies due north of Calcutta, since 1921. He told a Times reporter to-day that he shortly expected to retire.

The association of Lieut.-Col. Bailey with India dates back to 1900 when he was attached to the Middlesex Regiment, the Durham Light Infantry, the 17th Bengal Lancers and the 32nd Sikh Pioneers. He was a member of the Tibet expedition in 1903, explored the country the following year and served in Tibet from 1905 to 1909. In 1911 he explored Western China, Southeastern Tibet and the Mishmi Hills.

He was awarded the Gill Memorial by the Royal Geographical Society in 1912.

With Captain Morshead of the Royal Engineers, he explored the course of the Brahmaputra in Southern Tibet in 1913.

## WIDER FIELD NOW FOR KIWANIS

Milwaukee, Wis., June 25.—Convinced the time has not arrived for the establishment of Kiwanis clubs in nations other than Canada and the United States, Samuel Cummings, Dallas, president of Kiwanis International, urged in a message to the thirteenth annual convention here yesterday that organization in small communities be pushed instead.

The reduction of the minimum number of members required to form a chapter made this move possible, he said, for twenty-five, instead of thirty-five, might now band together under the ideals of Kiwanis.

Kiwanis, said Mr. Cummings, was in a competitive field. In its extension programme, quality of members must be considered, but "quantity of quality" was desired.

## NEWEST TRADE INQUIRIES ARE MADE AS TEST

Hon. James A. Robb Talks With London Express Over Transatlantic Telephone

London, June 25 (Canadian Press Cable).—The London Daily Express, controlled by Hon. John William Maxwell Aitken, son of Lord Beaverbrook and a strongly imperialistic newspaper, talked with Hon. J. A. Robb, Canadian Minister of Finance, over the transatlantic telephone last night regarding the reported proposal of a new Empire trade agreement emanating from Canada, published in London newspapers without official confirmation.

"We have asked our agents to feel out the position, that is all," Mr. Robb is quoted as saying.

The Express quoted a newspaper clipping on the subject.

"It is no use your reading stuff that gets in the morning papers in this hot weather," the Canadian Minister replied, according to the story published in The Express to-day. "It would be better if your newspapers did not say too much about it."

## MOVEMENT GROWS

"Is there not a definite movement in Canada for development of greater trade within the Empire?" the London reporter pressed.

"Decidedly," answered Mr. Robb, "but the report you have read to me has exaggerated the position."

"You can export us some cooler weather, if you like," Mr. Robb concluded.

London, June 25.—The new British House of Commons to-day held its first session under the Labor Government and re-elected Captain the Rt. Hon. E. A. Fitzroy, Conservative, as Speaker.

Not a vote was cast against the popular presiding officer, who was lauded in the nominating speeches for his impartiality.

A round of cheers greeted the result of the vote, to which the Speaker responded by thanking the House for conferring upon him "the greatest honor it is able to confer upon one of its members."

The House adjourned shortly afterwards and will get down to work next week with the reading of the Speech from the Throne.

All three leaders of the major parties, Premier MacDonald, Mr. Baldwin and Mr. Lloyd George, joined in congratulating Captain Fitzroy upon his re-election as Speaker.

To-day the new Labor members arrived early at the House, eager to look over the scenes of their future labors. They were not so early, however, as some of the older Liberals, who arrived and placed cards on their seats before breakfast.

## CHEERS FOR LEADERS

Premier MacDonald and former Premier Baldwin arrived in the chamber amid cheers from their supporters just before the official time of the assembly. The Labor members occupied the whole of the Government side of the House, the Conservatives had two-thirds of the opposition side and the Liberals were in the first and second benches below the famous gangway. The Liberals cheered as Ex-Premier Lloyd George, their leader, took his seat.

The usual historic ceremonial then followed. Gentleman Usher of the Black Rod appeared at the Bar, gave the customary three knocks, and being formally admitted, summoned the "faithful Commons" to the upper chamber to hear the Royal Commissioners read inaugural opening of the new Parliament.

## SWORN IN

After the Commons had been summoned and bidden to elect a speaker, swearing-in process of members of the upper chamber began. Lord Parmoor, Lord President of the Council, was the first to be sworn. The Duke of Norfolk, who recently became of age, performed his duties as hereditary Earl Marshal of England for the first time when the Lord Chancellor, the former Sir John Sankey and now Lord Sankey of Mooreton, took the oath as a peer.

## PEACE RIVER CROPS THRIVE AND MANY SETTLERS GO IN

Montreal, June 25.—"Some of the finest crops I saw in all the west were in the Peace River district," said Dr. W. J. Black, director of colonization and agriculture of the Canadian National Railways, who is back in Montreal after a tour which carried him across the country west of the Great Lakes.

"Wheat was up more than a foot and looking very healthy. The district had received the proper amount of moisture at the right time and the growing crops presented a wonderful sight."

"There is a tremendous area under cultivation this year throughout the entire Peace River country and land settlement has been going forward there at an enormous rate. Settlers have even gone in large numbers as far northwest as the Fort St. John district and they appear generally to be a fine lot of people."

## AT THE THEATRES

### MUSICAL REVUE IS FEATURE OF DOMINION FILM

An elaborate musical revue, especially staged for the picture, forms a part of "The Singing Fool," Al Jolson's super-special singing and talking production which Warner Bros. now present at the Dominion Theatre. The new Warner Bros. Theatre in the film capital was the scene of this single performance, which was staged under the direction of Larry Ceballos, famous producer of dances and spectacles. The "show" began at midnight, and the entire lower floor of the great theatre, which has a seating capacity of 3,000, was crowded with an audience of extras.

### ENTERTAINING PLAY ON THE STAGE THIS WEEK AT COLISEUM

With a story full of romance and the unusual, the Coliseum Players, under the direction of Raymond "Toby" Reiter, are presenting a current week at the Coliseum Theatre last evening, playing before an enthusiastic and appreciative audience which nearly filled the theatre. Naomi of the North is the title of this week's performance, and as the title suggests there is plenty of amusement and interest for all those who witness the clever little vehicle.

Leon Cluff as an old miner of northern Canada and Miss Ada Daniels, in the role of an Indian cook and housemaid, provide the bulk of the comedy this week. The Indian cook is the possessor of a valuable gold mine, on which Cluff sets covetous eyes. To marry her is the most logical way to secure a share in the mine, he decides. But the way is not so smooth as he anticipates and he finds a lover's life not so enjoyable. The Indian does not look with favor on his suit. Things change however and before long the Indian maiden finds herself running after the old miner, who she finds is not so easy to catch, after all. The love-making scenes are particularly funny and both members of the company handle their roles beautifully. As the red-skinned maid, Miss Daniels is splendid and with her muttering, most realistic as a native of the north woods.

### AIR EXPLOIT IS WELL RECORDED IN CAPITOL FEATURE

Intent upon picturing one of the most startling of current daredevil exploits—South Pole exploration—the Warner Bros. concentrate a copious share of their energy upon making the aviation special, "Conquest," an all-talking film which opened yesterday at the Capitol Theatre for a three-day run. "Conquest" is a romantic modern story which has the aerial exploration of the wastes surrounding the South Pole as its background.

### ROMANTIC DRAMA OF RUSSIA UNFOLDED IN "SCARLET DOVE"

Arthur Gregor, author as well as director of "The Scarlet Dove," the Tiffany-Stahl feature being shown at the Playhouse Theatre, is an Austrian, claiming Vienna as his birthplace. Before he was a war hero, a military attaché, and during that conflict he spent two years in an English detention camp. He was exchanged and after the cessation of hostilities returned to the diplomatic service as Under-secretary of State in Austria.

### INDIGESTION, GAS AND SEVERE PAIN

Of the thousands of people whom Tanlac has saved from the misery of indigestion and stomach trouble, none are more grateful than Mr. Fred Hill, 349 Thames St., London, Ont. "I had about given out altogether," he says, "and was going down hill so fast that I thought nothing could stop me. I ate only two light meals a day and even then suffered untold agonies from indigestion and gas, and pains that just doubled me up. My nerves were wrecked; every bone in my body ached; I could not sleep; and just felt sick all over."

"Tanlac fixed me up so I could eat anything from soup to dessert without having indigestion. All my other troubles vanished like smoke. I picked up twelve pounds and never felt better. I never thought anything could do for me what Tanlac did."

"Tanlac corrects Stomach Trouble and builds up the whole system because it is nature's own remedy for the sick—roots, barks and herbs. Remember, your money back if it doesn't help you, so get a bottle at your druggist's to-day."

### Chemainus

The first mid-month social held at St. Michael's Rectory, under the auspices of the Women's Auxiliary, was well attended. Those present were Mrs. Walter Porter, Mrs. Spurling, Mrs. Bevan, Mrs. A. Work, Mrs. Dobinson, Mrs. Toubee, Mrs. Boude, Mrs. Veale Sr., Mrs. Lang, Mrs. Cherrington, Mrs. Bayer, Mrs. Longrigg, Mrs. Cave, Mrs. Moore, Mrs. Chatters, Miss Wollaston and Miss Greig.

A pleasant feature of the evening was a cup and saucer shower for the Woman's Auxiliary.

Supper was served by Mrs. Spurling. Funeral services for the late Mrs. Charles Francis, held on Thursday afternoon at the Church of St. Michael's and All Angels and in the Anglican Cemetery, were attended by many friends. The hymns were "Jesus Lover of My Soul" and "Abide With Me." Pallbearers were Messrs. James Cathcart, Charles Smith, Henry Smiley, Fred Beacham, Rowbottom and McIntosh. Many beautiful floral tributes covered the grave.

Rev. Basil Spurling officiated and L. C. Brockway of Duncan had charge of the funeral arrangements.

Afternoon tea was served under shade trees on the lawn. Mrs. A. Work, convenor, and Mrs. Adam, general supervisor, were assisted by Mrs. Dobinson and Mrs. Lang. The Misses Coralie Fraser, Margaret Laidlaw, Margaret Dobinson, Dorothy Fraser, Kathleen Porter, Mabel Cook and Grace Mainwaring waited on the tables and Mrs. Evans had the tickets.

Stalls and amusements were well patronized, those in charge being: Mrs. L. G. Hill, ice cream; Mrs. Koch and Mrs. Wylie, baked food; Mrs. Stevens and Mrs. Troop, candy; Mr. Garrett, Mrs. Stubbs, Mrs. Reid and Mrs. Gregson, wheel of fortune; Mrs. Clarke and Mrs. Taylor, apron stall; Mrs. Gilbert Reid and Mrs. Stubbs, fish ponds; Mrs. Jarrett and Mrs. Hallberg, dolls; Mrs. Scott, clock golf; Mrs. Aiken, nail driving; Mrs. Chatters, guessing cake; Mr. Halden, David Reed and Jack Wylie, shooting gallery.

Winners of prizes and drawings were: plain apron, Mrs. Stevens; fancy apron, Mrs. Burns. Prizes were cakes. Apron drawing, Mrs. Stubbs; cake contest, Mrs. Chatters, Mrs. Estridge and Mrs. McDonald. The cake was cut in three. It was made and donated by Mrs. McKinnon. Child's suit, Mrs. Taylor. Boxes of candy: 1, Mrs. Reed; 2, Kirstine Adam; 3, Malvern Chatters.

The programme concluded with dancing in the recreation hall from 9 p.m. until 2 a.m. Allan's novelty five provided the music, and refreshments and ice cream were served.

Mr. and Mrs. Reed-Palmer of Vancouver were recent visitors of Mrs. Bruce Irving.

Major and Mrs. Pender of Victoria were recent visitors to Chemainus.

Mrs. Ray Clute was a visitor to Victoria last week.

Mrs. E. C. Hudson of Seattle is visiting her brother-in-law and sister, Mr. and Mrs. John Long.

Henry Smiley has returned from a visit to Victoria.

## THE PAIN OF RHEUMATISM!

"Fruit-a-tives" Rid Him of Trouble of Long Standing

A sufferer from rheumatism for years, Mr. S. Foyd, Nanaimo, B.C., turned to "Fruit-a-tives." He writes: "In a short while I had relief. 'Fruit-a-tives' worked like a charm." Do you have the terrible agonizing pains of rheumatism—can't work, can't sleep, torture all the time? "Fruit-a-tives" will give you relief just as it has helped thousands of others. No more pain for the rest of your days! Get a box to-day. Sold at all druggists. (Adv.)

## THE FORD CAR STEEL BODY

### Combines Strength with Beauty

THE high grade steel used in building Ford car bodies gives maximum driving protection. Beauty of design has been combined with rugged strength in these all-steel bodies. The wood parts shown in the diagram are used only for attaching the interior trim and roof material.

If this body—that of the Tudor Sedan in this instance—mounted on a Model "A" chassis, were turned over, and resting on the roof, it would support the chassis, engine and all without even bending the narrow window pillars. Such is the strength and high safety factors of Ford engineering.

Vision obstruction is reduced to a minimum by the use of narrow steel pillars. Lower rear panels, including the wheel housing, are made in one piece. This unusual feature on body construction gives additional strength.

Electrical welding adds greater rigidity and reduces the possibility of squeak and rattle. Panels and frame sections are welded or riveted. In assembly of large units where bolts are necessary, strips of anti-squeak material are used between sections. Sound deadening material is also used. Soft roof construction, of heavy padding over galvanized mesh wire, provides an additional element of quietness.

Drive it Yourself—there is no Better Test

## BENNETT TO-DAY HEARD AT TRIAL

Federal Conservative Leader Witness at Hearing of Suit in Ontario

Cobourg, Ont., June 25.—Making a hurried trip from Dunnville, Ont., Hon. R. B. Bennett, Federal Conservative leader, to-day spent an hour in the witness box at the trial of a civil action here and then returned westward to Stratford.

Called by the plaintiff, Mr. Bennett's testimony concerned the action taken by Colonel J. A. Aikin, Montreal newspaperman, against the Amalgamated Publishers Ltd., the Canada News Publishers Ltd., and Peter L. Brown of Port Hope, Ont. Aikin claims the defendants owe him \$825 for editorials and special articles written by Aikin and published in The Canadian News, a weekly newspaper published at Port Hope and edited by Brown.

Mr. Bennett testified he had recommended Aikin, whom he had known as a newspaperman in western Canada, to Brown as a prospect for editorial assistance when establishment of The Canadian News was being considered last year. That was his only connection with the matter. He testified he knew nothing about the financial arrangements between Brown and Aikin until he asked the former when they met at Ottawa how much he was paying Aikin. Brown had replied he was paying Aikin \$100 a week, and Mr. Bennett said he told Brown he thought that was too much. Brown subsequently told Mr. Bennett Mr. Aikin's salary had been reduced to \$60.

DECLINED TO PAY  
During cross-examination by A. T. Bowby of Toronto, Mr. Bennett said Aikin had suggested that as a matter of "good faith," and because he had suggested Aikin get in touch with Brown concerning employment, Mr. Bennett should pay Aikin the outstanding debt owed by the defendants, but he had refused.

## Report Soon On Water Supply

Nanaimo, June 25.—At a public meeting last night the method of increasing this city's water supply was discussed. A resolution moved by Senator Plant and seconded by Percy Cowman was passed, urging the city council to obtain the opinion of experts and place the matter before the ratepayers for ratification, immediately action to follow if endorsement should be given.

Many former councillors were present, and a lengthy report, including an estimate of cost totaling \$81,000, was read by Engineer Fred King, who had been engaged by the city to prepare the estimate.

Alderman Renny said he resented the meeting having been called to enable the best business heads in town to advance a scheme. If they were to stand for office on the council they were too busy to solve the water situation, he said.

## Barristers Are To Receive \$7,500 For Vancouver Inquiry

Vancouver, June 25.—Following Mr. Justice W. A. Macdonald's judgment, the costs which Thomas W. Fletcher, former Vancouver police commissioner, will have to pay to the firm of McGeer, McClelland and Wilson, barristers and solicitors, for the services of G. G. McGeer K.C., at last year's police inquiry, were taken to-day by Registrar J. F. Mather of the B.C. Supreme Court at \$7,000. The bill, as presented by the plaintiff lawyers for taxation, was a little in excess of \$10,000.

J. A. McGeer appeared on the taxation for the plaintiffs and Cecil Kilkham for Fletcher.

The bill of T. G. McLellan, barrister, against Mr. Fletcher has not yet been taxed.

## LIVES OF THREE IN SHIP SAVED BY ONE WORKER

Men Almost Killed By Gas in Hold of Vessel in Fraser River

New Westminster, June 25.—Quick, courageous action by Harry Pawan, South New Westminster, a member of the Vancouver and District Waterfront Workers' Union, saved Edward Bavis, Leonard Barry and George Lawrey, members of the crew of the steamship Tacielian, from death aboard the ship yesterday afternoon.

Pawan rescued the three when they were unconscious in the ship's hold from cyanide gas poisoning following fumigation of the vessel.

While standing at the top of a hatch waiting to go into the hold, Pawan saw one of the three men, who had been down some time, fall from a ladder. Quickly sensing something was wrong, he descended rapidly and obtained a rope, which he fastened around one of the men and had him hauled to the deck. He then did the same for the other two. All three were unconscious, but were revived by use of a pulmotor from a fire hall and were taken to St. Mary's Hospital.

They are almost completely recovered.

It is stated that in a very short time the three men would have been beyond aid. Another longshoreman, J. A. Minet, went down to assist Pawan, but had to return to the deck promptly, as he could not stand the gas fumes.

## TRIBUTE IS PAID BY PREMIER TO FIELDING'S WORKS

Ottawa, June 25.—"He has left behind him a record of devoted public service and irreproachable integrity which will ever be a source of inspiration to the public life of our country."

It was with those words Premier King concluded his tribute to the character and work of the late Right Hon. W. S. Fielding.

Paying homage to the memory of his former colleague, who died here Sunday night, the Prime Minister said in part:

"We can speak of Mr. Fielding without reserve to-day for he has long ceased to be the exclusive possession of a party or of a province. His memory is in the keeping of his countrymen without respect to race or creed or party. None will deny that history will award to him a place of highest honor among those devoted statesmen whose faith and courage have helped to establish the firm foundation of a Canadian nation as a part of the British Commonwealth of Nations."

That country is fortunate indeed that can produce men of the character and attainments of Mr. Fielding. In his private and public life he was an example of the highest virtues.

"Above all he was a true patriot, and I believe he would have wished to be remembered by his faith in the future of Canada as an integral part of the British Empire."

## TRADE PLAN OF BENNETT SAID TO HAVE BIG FLAWS

Canberra, Australia, June 25 (Canadian Press Cable).—Writing with the spirit of the proposal of Hon. R. B. Bennett, leader of the Opposition in Canada, to make the British Empire a great economic unit, Hon. H. S. Gullett, Australian Minister of Customs, to-day declared serious obstacles to such a scheme existed.

Referring to the Canadian Conservative chief's statements on the tariff question, Mr. Gullett said the plain truth was that tariff concessions between the Dominions were possible only where they were not made at the expense of local industries.

The Australian Minister continued: "The golden principle of the Empire is to do the best for the Empire by strengthening ourselves."

Declaring Mr. Bennett's suggestions would have to be considered with the greatest caution, Mr. Gullett said Canada might take Australian wines because she did not produce much herself, but there would be an outcry from local interests if Australia should take Canadian timber.

## TO REMAIN IN MEXICO

Ottawa, June 25.—The presidential decree for the expulsion of Major W. R. Kingsford from Mexico has been cancelled. A message to this effect was received yesterday at the Department of External Affairs here. Major Kingsford, who, with his wife, is now in Mexico City, will be required to report to the Minister of the Interior of that country to make any statement. His expulsion from Mexico was ordered by President Portes Gil.

## U.S. MEN FOUGHT U.S. MEN

Washington, June 25.—The Detroit River incident involving firing by rum-runners on United States customs patrol boat No. 4104 apparently has lost its international complexion as a result of official reports received by the Treasury Department, which are said to bear out newspaper accounts of the affair. Press reports indicated the rum boat concerned was from East Detroit, and probably manned by United States citizens.

When Secretary of State Stimson asked the Treasury for a report, the possibility of Canada's attention being drawn to the affair was mooted.

The Secretary intimated, however, that no action would be possible unless the identity of the craft and crew was established as foreign.

Now it is said no action is contemplated.

"The City of Roses" is the caption of the most recent folder issued by the Canadian Pacific Railway illustrating the attractions of Victoria.

The Empress Hotel, the accommodation of which is being enlarged to five hundred and seventy-eight rooms by the addition of the new north wing, is given pleasing prominence as the pivotal centre of the varied attractions of the city and vicinity.

## STATEMENT BY PREMIER

Canada's attitude with respect to the optional clause has been very clearly stated definitely, however, speaking in the House of Commons during the last session, Premier King dealt with the matter. He drew attention to the fact that at the last Imperial Conference the Government assembled had felt there should be no one part of the Empire formally accepting the optional clause without giving other parts an opportunity to discuss the subject.

"We have advised the other parts of the Empire that in our opinion Canada should sign the optional clause," proceeded Mr. King, "and we are at present receiving communications from other parts of the Empire in reference thereto. We are carrying out our undertaking at the conference not to sign formally until there has been an opportunity for discussion, but we have made known it is our desire to sign the optional clause."

THAT noisy, careless, lovable lad of yours needs quite a bit of patient guidance, doesn't he? You give it to him because he is your boy. That sunny little lass wants many things from her daddy—and you give them to her because you love her.

No, stepfathers are not wanted! Yet of all the wives who become widows, 35% are left in absolute want, 47% are obliged to work and only 18% are left provided for.

It is no wonder many widows have to marry for a home. Would yours?

Picture your kiddies at the mercy of some other man. Remember, stepchildren are not wanted either.

You can show your affection for your wife and children in the most practical form—you can save them from possible humiliation or want—by providing an Imperial Monthly Income Policy. If you live, it will provide you with that Income you must have to keep you when you are old.

## A REAL COLOR PROBLEM.

**S**INCE THE DECISIVE VICTORY OF General Hertzog in the South African general elections rumors have persisted that discontent among the natives has broken out in numerous quarters in a most unmistakable fashion. It is said that in addition to native riots in Durban there have been several cases of advocacy of open rebellion in protest against the Nationalist Government's lack of sympathy towards native franchise aspirations.

The native problem, of course, was an important election topic; but one which the more moderate elements in both Nationalist and South African parties wished had not been introduced. It will be recalled, however, that General Hertzog construed an early election speech of former Premier Smuts—in which the leader of the South African Party urged the necessity for close co-operation with the developing British African states to the north—into implying that the South African Party stood committed to the policy of merging the Union in one vast "British Kaffir State," in which white civilization would be submerged. Out of this Hertzog developed the election cry of "Smuts wants a black South Africa." This was described at once as a grossly unfair charge; but there is no doubt that it removed the opposition's chances of victory at the polls in the rural constituencies of the Transvaal and the Orange Free State, where the old republican view of native affairs prevails. The South African Party is in favor of referring the whole native problem, from both economic and political standpoints, to a national convention.

Since the South African War a considerable change has come over the native population, which, by the way, outnumber the whites by about five to one. Before that conflict the native who worked in the mines was an unclothed and untutored savage. His diet was "mealy" meal and his place of "residence" the compound. With the four or five dollars he received every month for his labor he was comparatively satisfied; but education and other influences have brought about new conditions, and with those new conditions the problem of the blacks has developed to perplexing proportions. The native now has his union; he has lost his inferiority complex; he considers himself just as good as the white man; and, indeed, many of the natives are skilled workmen. It is this new outlook which has produced the demand for political equality.

At present, outside of Cape Colony, the natives do not vote in the Union, save a very small number in Natal. In the Cape the voters are largely Basutos who for long have been accustomed to European standards of living. They are quite different from the Mashonas, the Matabilis and the Bechuanas of the north.

The Hertzog Government does not propose to do any more for the native in this regard than it is compelled to do. It takes the view that if political equality shall be conceded, it cannot be very long before the black dominates the white in that country. Thus it would appear that if South Africa's present standards of living are not to be submerged by the black population; that is to say, if it is to remain a white man's country, the native question will have to be dealt with with extreme delicacy and rare tact.

The point to be borne in mind is that sooner or later South Africa will have to decide whether there shall be this wide extension of the franchise which the native demands, or whether the country is prepared to run the risks which definite postponement of recognition of native rights, or what the natives think are their rights, may produce.

## OUR TAXATION

**W**HEN CANADIANS FEEL LIKE TEARING their hair when they think of the inroads taxation makes upon their annual pay cheque, they might find a little consolation in a comparison of their per capita charges with those of Great Britain, Australia and the United States. The following statistics have been worked out by the Citizens' Research Institute and tell their own story:

Per Capita Taxation	1923	1925	1927
Great Britain	\$97.12	\$92.42	\$90.37
United States	87.39	69.94	76.74
Australia	69.68	73.20	72.52
Canada	66.11	65.52	70.67

There is no "provincial" taxation in Britain, of course, but in 1927 she collected \$71.10 in national taxation alone, compared with Australia's \$43.31, Canada's \$38.31 and the United States' \$29.62. It is fair to point out in a comparison of Canada's levy with that of the United States that the neighboring republic's is higher in spite of that country's late entry into the war and her consequently lighter war obligations. The favorable national showing of the United States, incidentally, is offset by her high state and municipal taxation; but totaled up she ranks second to Great Britain as a tax collector and, it is pointed out, has an increasing per capita levy in contrast with Britain's steadily reduced figure.

## THE BIG CITY PROBLEM.

**R**AT MONTEAL attempted to chart some sort of course which big cities can follow in their expansion. Such things as automobile parking, rapid transit, skyscrapers and traffic outlets are discussed in all their phases as the experts strive to find some way of making life endurable in the crowded centres of population.

It is a big problem, and it will continue to get bigger each year. In fact, it may yet prove the very biggest problem America has to face.

Meanwhile—quite by chance, yet very timely—newspapers in every city in the land print pages of vacation advertisements.

You cannot pick up a daily paper without find-

ing yourself urged to get out into the open spaces for a rest. Lakes, mountains, rivers and ocean beaches flaunt their attractions in imperative type. Bathing is sketched in against a background of smooth beaches; excursion steamships are shown gliding over moonlit waters; fishermen are depicted enticing lusty bass and trout from lonely, shaded streams.

These advertisements carry the appeals of every section of the country, and, of course, vary greatly. Yet the basic appeal of them all is the same; get out of the city into the country and make yourself over—get away from the crowds, find a little peace and quiet and fresh air, and get some strength for the next year's work.

Thus, in a way, the cat is let out of the bag. At the precise moment when the experts are envisioning a constant growth in size on the part of all our cities, these vacation advertisements are emphasizing what all of us secretly know—that the modern big city, at bottom, is a pretty poor sort of place to live, and that people can stand it only by getting away from it every so often.

Many cities are crowded now. Many are tangled and jammed by streams of traffic. Many of them contain vast throngs of people who can never get out of sight or sound of one another. And, since the country is constantly growing, all of these things are going to grow worse instead of better. Congestion is to become more congested, noise is to become noisier, frayed nerves are to be made more and more taut and strained.

While we dream of our vacations, though, we might as well drop a prayer for the success of the expert realtors. For, after all, people are going to continue to live in our cities, whether they like it or not; and the least they can do is hope that some way will be found of making them more endurable.

## THEY TELL HALF THE STORY

**I**T MIGHT BE SUPPOSED THAT CERTAIN public men at least would try to be fair in their discussion of what they—and some newspapers continue to call the "exodus" of Canadians from this country into the United States. They neither tell the whole story of what has been going on in the last year or so nor make any reference to what took place when the present Opposition party was in office.

In the year 1920, for instance, 132,204 Canadians left the Dominion to reside permanently in the United States. In 1927 the exodus did not exceed 81,506, or fifty thousand less than in the last year but one of Conservative rule at Ottawa. Apart from this improvement, moreover, it is to be noted that in 1927 the number of Canadians who came back to Canada from the neighboring republic was 35,137, British-born Canadians who returned, 3,280, and naturalized Canadians, 1,470. In addition also there were 25,007 citizens of the United States who crossed the border to settle here. It thus will be seen that as against the 81,506 who left Canada for the United States in 1927, there were 64,894 who left the United States for Canada. And in evidence of how the movement now is practically balancing we may put the April figures. In that month immigration from the United States was 3,576, and also 2,641 returning Canadians, making a total of 6,217. Against this total is the total of 5,914 Canadians going south in the month in question. In other words, the advantage was on our side.

No matter what government is in office either at Ottawa or Washington there always will be an exchange of population between the two countries. Sometimes the balance will favor Canada and at others it will favor the United States. To a very large extent economic fluctuation will be the determining factor. There is, however, every prospect of Canada getting the benefit of the exchange and keeping it for some time. Our prosperous condition would seem to offer ample justification for this prediction.

## FOR ROADS IN MANITOBA

The Canada Week by Week  
Expenditure on highways and roads in Manitoba by the provincial government this year will total \$5,000,000. The programme outlined calls for the construction of over 500 miles of new highways and resurfacing 900 miles of trunk roads at a cost of \$3,600,000. The balance of \$1,400,000 will be spent in a variety of ways to improve traffic routes.

The total to be spent on road construction in the four western provinces in 1929 by the respective governments is \$33,600,000.

## PAST REDEMPTION

The Hamilton Herald  
John Maynard Keynes, the British economist, has been twitted with having at one time opposed Lloyd George while he now supports him. "The chief difference," he says, "between some people and myself is that I oppose Lloyd George when he is wrong and support him when he is right." This should be brought to the notice of William E. N. Sinclair, whose idea of leadership is to oppose the government all the time, right or wrong. Whatever the government proposes is by its origin, like man himself, naturally depraved and convicted of original sin.

## CENTENARIANS

The Hamilton Herald  
Last year we gave a large number of instances of the existence of centenarians in Canada and elsewhere, sometimes to the amusement of our readers, but intentionally for their information and comfort. One can have too much of a good thing, and while there are as many centenarians reported in the papers as ever, we have not given them the same attention. But to-day there may be read the statement by Professor Oscar Klotz that the day is not far distant when a man will be considered in his prime as he nears the century mark and from then on only will be regarded as an old man.

## Loose Ends

The men who do big things prepare to organize flagpole sitting and other worthwhile pursuits—Missouri awaits the locusts and signs of war—the world's best practical joker is discovered—and an awful prophecy is made.  
By H.B.W.

**T**HAT LITTLE company of people who really do things, instead of watching them, like the rest of us, is about to organize for its own protection, and in order to hand on its talents to other generations. According to The New York Times, an international conference is planned to codify and organize these worthwhile achievements into their proper categories, such as the classical and the romantic, the professional and the amateur. Thus according to The Times, pie-eating champions and all others who have made their fame by devouring things, would be ranked as classical, as would all contests involving the solid proteins and carbohydrates. The rank of classical would be extended to these performances because they have a prominent place in the history from the original apple-eating contest in Eden down to the day recently when August Comstock, of Pergus Falls, Minn., drank eighty-five cups of coffee in seven hours, fifteen minutes and no seconds. In the romantic school, on the other hand, it is proposed to place the death of Bill Williams, who, when last heard of, was pushing a peanut up Pike's Peak with his nose.

**T**HE QUESTION of professionalism and amateurism in these important matters, however, is not so easy to settle. Clearly into the professional class would go the great army of flagpole equestrians, Niagara barrellers, marathon dancers and seven-day bicycle racers. But where would you place the two youths who stayed awake seventy-two consecutive hours? What are you going to do with Edward Kemp, of Germany, who played a piano for eighty-two hours? Who shall be the custodian of the pancake records of ancient quility to decide whether the recent consumption of forty-three five-inch flapjacks constituted a record? Would they classify as classical, romantic, amateur or professional, or just ordinarily weak-minded, the New York physician who has been trying to golf from Paris to Berlin, 674 miles, in 7,000 strokes? And the feat of a German sailor who rolled a barrel from the heart of Budapest to the Danube, drank the contents and, on the side and started to float to the Black Sea, really defies classification.

**I**T WILL BE A pity to blight these really great achievements by putting them on an organized basis like brick laying or fixing water pipes. But in this age of machinery and organization nothing, however fine, can escape. I shall therefore demand official amateur recognition for the resident of Quadra Street, who, this season has removed with his own hands from his rose bushes and trampled underfoot individually no less than 8,123 ten caterpillars, not for gain but for the pure love of good clean sport.

**I**F YOU are one of those who think this generation has lost touch with nature and the eternal verities you should go to Missouri. There all good Missourians will know in a few days, from natural signs, whether there is going to be another great locust soon or not. The seventeen-year locust is about to descend on Missouri, and while this is distressing enough, there is something much worse about it. If the 1929 locust bears the letter W in the fine membrane of its wings the United States may as well prepare for another war, say the Missourians, who are in close communication with the infinite. The 1912 locust, they recalled with trembling voice, bore the letter W, and within two years came Armageddon. Similarly in 1895 the insect heralded the Spanish-American war of 1898. While waiting for the locust to appear the United States Government, not in communication with the infinite, is anything nearer it than the British Foreign Office, is going blindly on with its peace efforts anyway.

**L**AYTON, NEW Jersey, boasts the most practical of all practical jokes. A United States navy dirigible was traveling over the town some time ago, and as it neared the ground a man ran out of a house with a shotgun and fired a charge into the dirigible's gas bag. Fortunately the buckshot merely tore small holes in the ship's fabric, but had they hit some of the machinery they would have caused disaster. When the navy rounded up the eccentric marksman they found it was one Merton Hankins, a carpenter, and promptly charged him with assault with intent to kill. But jury of his New Jersey peers, hearing his plea that it was only a harmless lark, found him not guilty. Apparently, Mr. Hankins' reputation as a joker is well established among his friends. Two years ago, when the Flatbrook Valley Club refused to let him fish in its privately-stocked trout pools, Mr. Hankins opened the dam, let out the water, and killed most of the fish. This joke cost him a fine of \$300, so he turned from trout fishing to dirigible shooting and found this new sport less expensive.

**U**NKNOWN to most of us, mankind is about to turn the corner upon a new epoch of freedom for its more down-trodden half. John David, New York chain store clothier of renown, in a recent speech said men of this hemisphere would shortly be liberated from ankle to knee, wearing roomy shorts instead of trousers with vivid sandals. In the evening when they dress up they will appear in clothes of silk with satin knee breeches, cutaway coats, colored vests and buckled shoes. Which will mark the first independent idea men have had since the Duke of Wellington in-

## WILL SURVEY GORGE BRIDGE

Esquimalt and Saanich Engineers to Determine the Strength of Span

Fear Crystalization Has Weakened Structure; Land Sales Monopoly Extended

Municipal engineers of Esquimalt and Saanich will inspect the Gorge Bridge to determine the amount of traffic it can safely bear and recommend to their respective councils that a certain weight limit should be imposed on traffic using the span.

Action is taken as the result of a communication received by the Esquimalt Council from the Saanich body during its meeting in the Municipal Hall last night.

In the discussion relating to the bridge, which followed the reading of the communication, it was again noted by Councillor Lockley that the bridge had in all probability crystallized since its erection and was no longer fit to bear the amount of traffic it had in former years.

**NEED EXPERT ADVICE**  
When questioned, H. F. Bourne, the Esquimalt engineer, stated that a consulting engineer would have to be employed to determine the strength of the span. A piece of the steel would have to be cut and analyzed, he added.

According to an unofficial statement made by the Government engineer four years ago, the bridge was capable of the traffic then regulated by the municipalities of Saanich and Esquimalt, for four or five years from the date of the inspection. Since that time was up now, the council considered it time for another survey of the bridge's strength.

According to Councillor A. Lockley, the bridge might stand for some time, but, on the other hand, it might fall at any moment under undue strain.

## TRAFFIC TOO HEAVY

It was the general belief of the body that traffic, of weight greater than that provided for in the regulations, was crossing the bridge now.

Should the council consider the bridge a menace to human life crossing it, it could barricade the span, it was noted.

During the meeting the Vancouver Island Realty Company, sole agents for the sale of reverted land in Esquimalt, was given an extension of three months on its monopoly for selling the municipality's lands.

## IMPROVEMENTS BROACHED

Improvement work on Lampson Street was referred to the public works committee to consider in conjunction with the municipal engineer and to report back to the council at its next meeting.

The council decided to make another call for tenders for the painting of the sign on McLaughlin Point. The sign was erected some time ago to advertise Esquimalt lands to people entering Victoria by boat. The contract for painting it will be awarded at the next council meeting.

## Acidity and Rheumatism

Team mates travelling together—uric acid and rheumatism. Where there is rheumatism, there is likely uric acid biting the kidneys; uric acid inflaming the nerves; uric acid swelling hands and feet.

Where there is this excess of uric acid in the system, there is a very immediate need of ABBEY'S to neutralize this poison—and give relief.

For sparkling ABBEY'S takes the "bite" out of uric acid, and keeps the blood and nerve centers free of its irritating action.

For many years the use of salines such as ABBEY'S has been an important part of the treatment for rheumatism.

Because of its uniform quality, the care in its preparation and the intrinsic value of its formula, ABBEY'S is regularly prescribed in those cases where pain or sickness is due to an excess of uric acid in the system.

## DEAN COLEMAN REVIEWS TASK OF KIWANIANS

Friendship Is Keynote of Public Service Clubs' Success, Members Assured

International Convention Address of President Read at "Zero Hour"

The Victoria Kiwanis Club turned out in strong force last night to attend a "zero hour" dinner at the Empress Hotel, similar functions being held by all the Kiwanis Clubs of Canada and the United States to mark the opening of the International convention at Milwaukee.

Dean H. T. J. Coleman, of the University of British Columbia, guest speaker of the evening, addressed the club, discussing "Kiwanians and the Spirit of the Age." He pointed out that it was impossible for any age to be properly understood by its contemporaries. "We can better understand the ancients than they could understand themselves. They were submerged in the activities of their day, while we, through the work of our scientists can realize more accurately what was happening," he pointed out.

"These times have been called 'the age of jazz,' 'the age of big business,' and 'an age of greed or exploitation,'" he said, criticizing a German work which denounced western civilization as one of decay and degeneracy. Dean Coleman objected that comparison of society with an individual organization was incorrect, as society contained within itself the elements of continuous renewal.

"Every age, and our own age above all others, has been characterized by more than one spirit, so we are able to take a hopeful view," said Dean Coleman. "All experience is educative, and we are coming to realize that fact. 'Don't underestimate your abilities and do not disparage your opportunities,' he advised.

**UNKNOWN FORCES**  
"The Kiwanis Club is now a means to discover abilities and has grown in many ways undreamed of by the first organizers," Dean Coleman pointed out, citing music, orchestras, glee clubs,

operatic societies and foundation of scholarships in music as instances. At luncheon meetings the members still talk 'shop,' as did their forerunners in the Kiwanis clubs, but not in the same way or with the same object. Our 'shop' now is informative, not propagandist, and is one of the most interesting things one can imagine," he considered.

**WELFARE IS MEASURE**  
"The final product of all business or activity must be expressed in terms of human welfare and Kiwanis has made a real contribution of this type. If I were a visitor in a strange town I would feel a real confidence in the dealer I patronized if I found him a Kiwanian," he pointed out.

The highest factor in Kiwanis membership was the friendship aspect of association, and Dean Coleman closed by stating "here, more than anywhere else, is the gift of Kiwanis to the world to-day."

**PRESIDENT'S MESSAGE**  
Past President C. Elwood Watkins read a "Zero Hour" message from President O. S. Cummings, which pointed out that 102,500 Kiwanians were simultaneously celebrating attainment of fourteen and a half years of progress, and that pride in the achievements of the past was inspiration to more fully apply the objects of Kiwanis to the future.

The address pointed out that Kiwanis is a modern experiment in the field of the human and the spiritual and the object of rigid scrutiny by its own members and the world at large. Pointing out that Kiwanians are picked men in their communities, the address of President Cummings showed that the members are interested in their fellow men, willing to give time and substance to worthy causes, more patriotic than partisan in politics and in personal lives maintain standards which prove examples to their communities. In these matters they practice the ideals they profess, he pointed out.

**BUILDS BETTER MEN**  
The co-operative achievements of life are the accomplishments of friends and the capacity to make friends helps determine success. Service in a worthy cause furnishes training in leadership and talents are improved in the service of Kiwanis, which first builds the builder and so builds better men.

The address showed that the influence of Kiwanis in raising the standards of business and professional life has been a potent factor in the last decade and a half, financial success being no longer applauded unless attained through integrity and fair dealing. Kiwanis makes good its claim to build by building better business.

**CIVIC SERVICE**  
The most obvious results of the building of Kiwanis have been in the field of civic service. In this Kiwanis crystallizes civic consciousness and harnesses the man power of a city in the solution of its problems. Through humanitarian service such as underprivileged child work, or promotion of better understanding between city and farm residents, Kiwanis would continue to build its ideals into the warp and woof of life, making good the claim to build by supporting better communities.

Because the ideals of Kiwanis are applicable to nations as well as to men, Kiwanis may help cement together international relations and so build a better society.

**JUSTIFIED BY WORKS**  
The address closed with the admonition "Only so long as Kiwanis builds in the field of the human and spiritual, only so long as the product of our building is better men, better business, better communities and a better society, will Kiwanis justify its existence. Let us dedicate ourselves anew, at this zero hour, to the ideal of universal brotherhood in the fellowship of service to humanity."

Telegrams from J. Brooke Stephenson and H. M. Diggon, delegates to the Milwaukee Convention, were read during the evening.

**MEMBER BEREAVED**  
D. MacAdie, chairman, announced with regrets the death this morning of the wife of Kiwanian Stan Wallis, and the sympathies of the Kiwanis Club will be tendered the bereaved family.

## Such delightful salads

BECAUSE salads are so easy to prepare and because they are so fresh, delightful and healthful, more and more experienced and clever hostesses are serving them daily on their tables.

To please your family and your guests do as these women do. Serve salads every day and serve with them dressings made in your own home with Colman's Mustard as one of the ingredients.

English mustard enhances the savour of a salad dressing—increases its zest—gives it an added flick of flavour. Also mustard is healthful because it aids digestion.

**A Wonderful Book of Recipes FREE**  
We have prepared a beautiful illustrated book, SALAD SECRETS, which contains scores of tried and tested recipes for salads and salad dressings. This book is yours FREE for the asking. Write for it to-day.

## KINDERGARTEN PRIZE-GIVING

Little Pupils of St. Ann's Present Delightful Programme at Closing

The little students of St. Ann's kindergarten disbanded for the holidays yesterday afternoon following the annual prize-giving and entertainment held in the auditorium of St. Ann's Convent.

The pleasing programme opened with a chorus, "How Would You Like to Be a Baby Boy or Girl?" in which the little ones found their place in the hearts of the appreciative audience. An amusing play with a moral was given by a class of five small boys, and Master Teddy Spencer played two clever violin solos, accompanied by his mother.

"The Leprechaun," in a typical Irish setting, gave scope for graceful dancing, singing and acting, including in its cast six little colons, eight fairies and the Leprechaun himself. The costumes were very pretty. The violin music for the dancing was played by Mrs. Spencer.

"Kitty of Coleraine," by three little boys and three little girls, was charming in costume and in action, and was followed by a full chorus of the school with spades and pails ready for a happy afternoon on the beach. Another spirited chorus and an amusing action song, which included a most realistic pillow-fight, was well applauded. The promotions and list of premiums were read as follows: Premiums for class excellence in grade two, presented by Mrs. T. Hartnell, awarded to Hazel Hutchinson; premium for good conduct, merited by Walter Cownden, Edith Hunter, Marie Longpre, and Jack Kenny; premiums for application, merited by Herbert Hartnell, Jack Kenny, Morgan Deveson, Peter Brown, Jackie Ewell, Walter Cownden, Irene Quagliotti, Molly White, Hunter, Angelina Costanzo, Hazel Hutchinson, Betty Hutchinson, Eileen Hickey, Marie Longpre, Claire Guillemaud, awarded to Morgan Deveson, Peter Brown, Jackie Ewell, Walter Cownden, Irene Quagliotti, Molly White and Betty Hutchinson; premiums for perfect attendance for one year, awarded to Kathleen Row and Francis Costello; premium for obedient manners, merited by Herbert Hartnell, Walter Cownden, Betty Brady, Mary Jessamine, awarded to Herbert Hartnell, Betty Brady and Mary Jessamine; premium for neatness and cleanliness, awarded to Jackie Ewell; premiums for catechism in grade eleven, merited by Joyce Levitt, Jackie Ewell, Bernard Costello, Kathleen Row, awarded to Bernard Costello; premium for catechism, grade one, merited by Eileen Hickey, Alice Kelly, awarded to Alice Kelly; premiums for adherence to perfect costume for one year, awarded to Claire Guillemaud, Angelina Costanzo, Victoria Burke, Rita Nevard and Claire Rivers; premium for singing, awarded to Verna de Macedo; premium for class excellence in grade one, awarded to Eileen Wood, Verna Banks, Annie Kelly; premium for catechism in kindergarten, awarded to Margaret Turner and George Noda. Promotions—To grade three, Kathleen Row, Molly White, Irene Quagliotti, Mildred Hartnell, Michael Crigge, Bernard de Macedo, Josephine Dobbie, Bernard Costello, Walter Cownden, Morgan Deveson, Peter Brown, Jack Kenny, Edith Hunter, Irene Hickey and Bernard Linskill. To grade two, Angelina Costanzo, Alice Kelly, Claire Guillemaud, Audrey Farnthorpe, Mary Jessamine, Marie Longpre, Billy Hysol, Angela de Macedo, Frankie Jessamine, Betty Hutchinson, Betty Brady, Kenny Row and Woodrow Fontaine. To grade one, A. Mary O'Brien, Alexis Garnett, Ella Hood, Annie Kelly, George Noda, Victoria Burke, Edward J. Spencer, Michael Costanzo, Rita Nevard, Joseph Longpre, Joan Leonard, Claire Rivers, Jean Dobbie, Mary Dolan, Albert Woodbury, Verna Banks, Margaret Turner and Francis Costello.

Mother Provincial who was present, with Sister Superior of the Convent, was presented with an address and some lovely flowers by one of the tiniest girls, while an equally diminutive boy voiced the thanks of the children to Rev. Father Evans, rector of St. Andrew's Cathedral. Father Evans spoke a few words of advice to the children and wished them a happy holiday season. He congratulated the children upon the excellence of their year's work and of the programme they had just presented. He also congratulated the Sister in charge who had trained the children so well. A goodye chorus brought the happy afternoon to a close.

The Church Hall is situated on Ryan Street and Belmont Avenue, adjacent to Oaklands public school, and may be reached from No. 6 and 7 street cars (Hillside terminus) or Haultain Stage (Belmont Avenue).

## St. Alban's Fair To-morrow

Fun and feasting will be the order of the day at St. Alban's Church Hall, Oaklands to-morrow when the annual St. Alban's Fair will be held. Opened by Sir Richard Lake at 2.30, the revels will continue up till 11 o'clock.

Refreshments ranging from an ice cream cone to a sit-down supper may be obtained, while the amusements associated with an Old Country village fair are offered in full measure. Among attractions specially appealing to small children will be a well-stocked brant, presided over by Mrs. A. U. Davis, while the grown-up will find numerous tempting baits for helping the funds of St. Alban's. From 9 o'clock to 11 there will be dancing in the hall, Mrs. Dobbie being the pianist.

The Church Hall is situated on Ryan Street and Belmont Avenue, adjacent to Oaklands public school, and may be reached from No. 6 and 7 street cars (Hillside terminus) or Haultain Stage (Belmont Avenue).

## Musical Star Robbed of Jewels

Chicago, June 25.—Two young bandits early yesterday robbed Ethel Terry, musical comedy star, of \$30,000 in jewelry. Miss Terry, who a month ago married Benjamin E. Boggs, wealthy real estate man, was returning with her husband to their apartment from a cabaret, when they were robbed. Nothing was taken from Mr. Boggs.

## MRS. HOOVER IS CONGRATULATED

Her "Very Proper Courtesy" to Wife of Negro Representative Is Lauded

Washington, June 25.—Mrs. Herbert Hoover has been congratulated for her "very proper courtesy" in receiving Mrs. Oscar De Priest, wife of the negro representative from Illinois, at tea in the White House. The Women's International League for Peace and Freedom has sent a letter to "the first lady" offering congratulations because of the congressman's wife was not omitted from the list of congressional guests entertained at the White House.

Mrs. Hoover's tea party has stirred up a great amount of discussion in social and political circles in Washington and more particularly among the Southerners. A musical given by Representative and Mrs. De Priest last Friday, to which all Republican members of Congress were invited, was attended by only one congressman and about a score of other members of the white race.

## Berry Festival At First United

Mrs. A. S. Christie, the president, presided at the monthly meeting of the Women's Guild of the First United Church held at the church on Monday afternoon, when arrangements for a strawberry festival to be held in the church hall on Friday evening at 7.30 o'clock were completed. A delightful musical programme, including community singing, will be given under the leadership of Beverly Fife. A large gathering of young people is expected. Two beautiful bed quilts, one of which is nearing completion, were shown at the meeting. Mrs. J. Bunn and Mrs. Connibear being in charge.

Reports of sick visits to the different hospitals were given by Mrs. McBride, who in future will be assisted in this work by Mrs. Harmer. Miss Rennie was heartily thanked by the ladies for floral decorations, which are beautifully arranged at the pulpit from last Sunday. Tea and refreshments were served at the close of the meeting. Miss McAllen being the convener and hostess for this.

A surprise party was given on Saturday evening at the home of her sister, Mrs. Menagh, Quadra Street, in honor of the Misses Eunice and Joy Whiteside, R.N., who have just returned via the Panama Canal from New York where they have been nursing for the last year. The following were present: Mr. and Mrs. Brady, Miss Wilma Brady and Mrs. Beecher, and the Misses H. Henderson, G. Baker, B. Ketchikan, H. and Mrs. Calbeck, N. and Mrs. C. L. Nye, Los Angeles, and W. ## Why ATTILIO of Rome

*Beauty Specialist to the Italian Royal Family Says*

**"Use Palmolive Soap twice daily"**

"The finest cleansing agents for the skin are, by general consent, olive and palm oils. For that reason, I always ask my clients to use Palmolive."

*Attilio Colla*

PIAZZA DI SPAGNA 68, ROMA

"I AM perfectly certain," says Attilio, of Rome, "that there are countless complexions which are less lovely than they ought to be, merely because one of the simplest and most natural of all beauty treatments is neglected. I refer to the cleansing of the skin."

"I always ask my clients to use Palmolive Soap, which embodies the finest cleansing agents for the skin."

In his beauty shop, at 68 Piazza di Spagna, Attilio receives visits from no less a personage than Her Majesty, the Queen of Italy. Roman patricians naturally seek his advice on care of the complexion.

Attilio's distinguished colleagues, in every great capital of Europe, in every smart resort... repeat this same advice. They tell their discriminating clients this simple twice-a-day treatment: massage a smooth lather of Palmolive Soap and warm water into the skin. Allow it to penetrate the pores. Rinse, after two minutes, first with warm water, now with cold. Only then are you ready for make-up! Begin to use Palmolive today!

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

### THE CROSS CHILD SHOULD BE HELPED TO FIND NEW INTERESTS

It is useless to spend time and energy scolding a child because he is cross, when the same time might better be expended in helping him to find an interest that will send the crossness scuttling. Of course, the cross child may be tired, in which event a bath and a nap should end it, or he may have a stomach grumbling under the load of some food difficulty to digest, in which case scolding won't ease his discomfort. But if he is just the ordinary child, tired of his games, tired of his toys, all he needs are a few fertile suggestions for activities that will inspire him to action.

The two year old is often more interested in helping with the dishes than in making sand-pies. The child of four may be more interested in a pan of potatoes which she can peel than in looking at a picture book. Mothers very often are static. Because a child finds something of interest to-day they expect that interest to last indefinitely. Sometimes all ready-made games pull on the child. He wants suggestions for games in which he has to be the creator. We had our share of toys but we spent whole days pretending we were a milliner and filling shelves with leaf hats intricately trimmed with grapevine tendrils and garden flowers. And to open a drug store necessitated long hours devoted to collecting bottles of all sizes and filling them with every concoction that might possibly resemble medicine—starch, bluing, red ink and scrapings from red bricks.

We made "dew beds" by filling hollow spaces in the ground with moss and flowers and covering them with glass, which in the early morning had a most entrancing freshness and beauty to our pleased eyes. We made hairpin ropes from colored twine wound on spools, with which we fondly hoped some day to carpet the house. Our interest seldom lasted beyond the first yard but the fun we had planning what we would do with this lovely twist of colored twine repaid our mother's effort in getting us started.

Our son is, at the moment, spending every spare moment assembling a plane which is positively guaranteed to fly. So far he has worked nineteen hours, at various times, and with scarcely a lifted head. Surely a most absorbing pastime and one which many a mother might feel far too intricate for an inexperienced carpenter, just as she thinks household tasks too hard for the toddler.

Mothers have to keep not only abreast but slightly in advance of their children's interests and be prepared to offer new ones when the old ones wane, as they most surely will with any active-minded child. The cross child is indicating most positively that he needs to be inspired to new activities. It might help the busy mother to write down on some convenient pad every suggestion for games or projects which she encounters in her daily reading, for unless so nailed down they'll fly out of her head just at the moment when the child is demanding, "What shall I do?"

## MANY ATTEND DYERS' PICNIC

Later in the afternoon a baseball game was held between blues captained by H. McCloy and E. Morry; won by McCloy's team with a score of 21-19. Umpires were Messrs. George Johns and Charles Jagger.

The committees which made the picnic a success were: finance, M. Wright and T. Bolton; refreshments, M. Rowland, M. Tindley, M. transportation, H. McCloy, W. Jaume, J. Galvin; sports, G. Beek, G. Johns, E. Morry and T. Wallace; supplies, C. Miller, H. Shandley; auxiliary, C. Keown and H. Turf.

The staff and friends join in thanking G. G. MacKenzie and H. E. Brown, managers of the Pantorium, for their kindness and generosity in donating all prizes and their interest taken throughout the day.

## Mrs. Alan Morkill Addresses Kumtuks

Extension work of the Girl Guide movement in its part in cheering the "shut-ins" of hospitals and homes for the blind and deaf was explained to the Kumtuks Club at luncheon yesterday by Mrs. Alan Morkill, Provincial Girl Guide Commissioner.

Children in these homes were able to join the guides in their work and take part in the regular routine, said Mrs. Morkill. It gave the children an outside interest and helped them bear their troubles a little more bravely.

"It is wonderful to see how interested they become in their contact with the big world outside. They work hard to pass the regular guide tests and receive their rewards," she added.

The talk was much appreciated by the club.

Miss McDonald of Vancouver and Mrs. James Watson of Edmonton were guests at the luncheon.

The next meeting of the club will be in the form of a picnic at the home of Mrs. Wille, 221 Sunning Avenue, Shoal Bay, on July 8 at 6 p.m.

## MOTHERS AND THEIR CHILDREN

THE "HELP CHEST"

One Mother Says—Modern girls do not seem to bother much about "Help Chests." My youngsters have instead a "Help Chest." This is a big old-fashioned "shirtwaist box." Into it goes every usable garment discarded by the family, but first the garment is laundered and, if necessary, mended. When we hear of a family in need, we are prepared to help them without the necessity of hunting through drawers and cupboards to see if there is anything we can spare. There is so much "wear left in things" children outgrow that they should be passed on where they will be of service. It is a good example for our children, too.

## SCHOOLGIRLS' SEWING DISPLAY

Pupils of Three Schools Show Work Accomplished in Household Science Classes

At the North Ward School yesterday afternoon, the household science classes of the Burnside, Quadra and North Ward Schools displayed their needlework done during the term under the tuition of Miss Ella E. Roe. Many interested mothers gathered and highly commented on the fine work accomplished.

All available wall space, racks and tables were taken up with the exhibition, which comprised the needlework of Grades VI, VII and VIII in these three schools, and includes frocks, pyjamas, uniform for the cooking class, and attractive bedroom articles. The work was remarkably neat in detail, and showed unusual taste in style, coloring and choice of material.

The various steps in instruction were pointed out by Miss Roe. In Grade VI the earlier lessons are in machine stitching, with unthreaded needle, on lined paper. After this the machine is used on unlined paper, then on sample seams. If this final test is well carried out the girl is put on garment seams. The interest from this point on is intense, and in a lesson or two the girls are completing their cooking-class uniforms of white nainsook, with apron, towel, pot-holder and cap, to be used in the "foods" work of Grades VII and VIII.

**MOVE ON**  
Grade VII girls go on to more complicated subjects, nightgowns, pyjamas, or simple straight-line dresses, either sleeveless or with kimono sleeves. Undergarments are stitched with French seams, a lesson in which has previously been given on samples. Grade VIII engaged in making slips and bloomers. This study is supposed to be complete in about three lessons. The little dresses made by Grade VIII are as complicated in design as any average frock worn by a girl of this age, and the samples of the girls' skill shown yesterday would find ready sale in any shop. "Be girls not only choose their own patterns from the quite wide

range permitted by the teacher, but they do all their own cutting-out as well as basting and fitting, and seam stitching and finishing.

Among the prizes won by the school this year are the following: 1, the Women's Canadian Club silver tea tray, won by Grade VII girls; 2, the Women's Canadian Club silver service, won by Grade VIII; (judges for both these competitions, open to all the city schools home economics classes, were Mrs. John Kyle and Mrs. Farr); 3, Hudson's Bay Company's junior competition, won by Grade VII; 4, Spencer's prize competition, won by Grade VII. Although the classroom at the North Ward School is in possession of several sewing machines and gas rings, Miss Roe says that a home economics library is badly needed. Some books which would give instruction and suggestions in table setting, for instance, would be invaluable.

## City Temple Will Hold Garden Party

To-morrow afternoon and evening a garden party being conducted by members of the various organizations of the City Temple under the auspices of the Ladies' Auxiliary, will be held at 301 Gorge Road, West (corner of Tillamum Road).

The party will be opened by the President of the City Temple at 3 p.m. Afternoon tea will be served in these spacious grounds of Mr. and Mrs. Frank Neelands, and a cafeteria supper will be given from 5 to 7 p.m. Ice cream, soft drinks, candy and the usual garden party refreshments will be available. There will be miscellaneous stalls, fortune-telling booths, and music from two orchestras, in addition to orthophonic and selected instruments. The dances will be presented by pupils of the Art School of Dancing, Miss Mona Jewell's Dancing School and the Hillside Dancing Academy. There will be community singing conducted by the City Temple choir during the evening, and numerous games for old and young. A quizzing pitch has been set up and a jumbo stall is to be opened. Two tombolas will be drawn for, afternoon and evening, and the ladies are making plans to entertain an extra large group of people.

A black and deep rose dressing gown has an ermine flower decorating its shoulder. Ermine edges its wide sleeves.

# Young English Player Springs Upset In Wimbledon Tennis

## Francis T. Hunter, U. S. Star, Beaten By "Bunny" Austin

No. 2 Ranking Player in United States Falls Before Dashing Play of Younger Opponent; Hailed as Fine Victory for English Tennis; Willard Crocker, Canadian, Defeated; Tilden Wins Easily; Cochet Extended to Four Sets by Gandar Dower; Helen Wills Wins Her First Match.

Wimbledon, Eng., June 25—Francis T. Hunter, ranked No. 2 in the United States, to-day was eliminated from the British singles championship at Wimbledon by "Bunny" Austin, youthful English star. Austin won 6-3, 6-2, 4-6, 6-3.

The rising young Englishman had his strokes working in perfect order, taking the first two sets before Hunter could get started. The United States player won the third set but he could not stand the pace in the fourth set and fell before the fine placements of his much younger opponent.

The defeat of the veteran American by Austin was the first real upset of the Wimbledon championships which got under way yesterday.

British experts hailed Austin's performance as "one of the finest victories for English tennis since the World War."

Jean Borotra, one of the French aces, received another good workout in his three-set defeat of W. A. R. Collins, 6-3, 6-4, 6-2.

John Hennessey defeated R. E. Worthington, England, 6-4, 6-4, 6-3, while George Lott won from L. De Borman, Belgium, 6-0, 6-1, 6-2, and Wilbur Coen stopped C. J. Robbins, South Africa, 6-1, 6-1, 7-9, 6-1.

P. Laundry, England, defeated Edward Andrews, New Zealand, 4-6, 7-5, 6-0, 6-1.

CROCKER BEATEN

J. S. Cliff won from the Canadian Davis Cup player, W. P. Crocker, 6-2, 6-3, 6-3. Crocker was the last Canadian in the championships. Dr. Jack Wright, the other Canadian Davis Cup player, being defeated in the first round yesterday.

Wilmor Allison, of the United States, eliminated H. B. N. Cooper, of Great Britain. Allison dropped the second set 3-6, but won the others 6-3, 6-3, 6-2. Miss Helen Wills, the champion, won her first round match from Miss C. E. Tomblin, 6-0, 6-0. The United States star was never in danger of losing a game.

Mrs. Molla Mallory, former champion of the United States, won her first round match from Miss A. De Smit, South Africa, 6-3, 6-6, 7-5.

In another first round match among the women players, Miss E. A. Goldsack defeated Miss H. Bourne, 6-3, 6-4. J. C. Gregory, England, won his second round match with F. R. L. Crawford, 1-6, 6-0, 6-1, 6-2.

J. D. P. Wheatley, England, defeated C. S. Higgins, 6-4, 6-4, 6-3, 7-5.

K. Wetzel, Germany, won from Dr. Russell, Great Britain, 6-2, 6-2, 6-3.

TILDEN WINS EASILY

Bill Tilden won from C. H. Campbell, 6-1, 6-2, 6-0.

Miss Elizabeth Ryan won from Miss Anderson, Great Britain, 6-1, 6-1.

Mrs. May Sutton Bundy, who drew a bye in the first round, advanced to the third round when Mrs. E. Robertson, her second round opponent, scratched.

Lili de Alvarez, the Spanish star, defeated Mrs. Bruce, Great Britain, 6-0, 6-2.

H. G. N. Lee, Great Britain, won from J. L. Chamberlain, 6-2, 7-5, 7-5.

Henri Cochet, the flashy Frenchman, was forced to four sets before he eliminated Gander Dower of Great Britain, 6-4, 6-4, 6-4, 6-4.

L. Raymond, South Africa ace, was responsible for the downfall of Randolph Lycett, of Australia, in straight sets, 6-3, 6-3, 6-0.

A FIERCE STRUGGLE

The appearance of Frank Hunter and H. W. Austin on the centre court was long delayed by a fierce five-set duel between the German, Goldenhauer, and the Italian, Baron de Morpurgo, the Italian count winning 3-6, 6-4, 6-3, 2-6, 6-4.

Christian Bousset defeated G. Crellie, 6-4, 6-4, 6-3.

H. Timmer won from J. M. Hillyard, 6-3, 6-0, 6-2.

Miss C. Astin, Germany, defeated Miss Tyrrell, Great Britain, 6-0, 6-2.

Miss Betty Nuthall, youthful British star, accounted for the defeat of Miss V. Marshall in straight sets, 6-1, 6-4.

Miss Helen Jacobs, of the United States, made short work of her match with Mrs. Billie Neave, of South Africa, winning 6-0, 6-3.

B. Von Kehring defeated C. S. Colvin, 6-3, 6-1, 6-4.

Miss Joan Fry, youthful British star, eliminated Mrs. H. G. Broadbridge, 6-2, 7-5.

Johnny Van Ryan was the second U.S. star to fall in to-day's play. The former Princeton net ace was eliminated by Jacques Brugnon, the great French strategist, by the scores of 1-6, 6-3, 6-2, 6-4.

## WELSHMEN JUST MANAGE TO WIN

Edmonton All-stars Gain One-goal Lead, But Tourists Come Through

Edmonton, June 25.—Playing an exceptionally good soccer game and making their opponents fight every inch of the way, Edmonton All-stars surprised everyone here last night, including themselves, when they held the famous Welsh footballers to a 2-1 score.

A crowd of about 3,000 witnessed the game. There was no score in the first half, although Edmonton had some fine chances. The tourists got in close on numerous occasions, but the most sensational saves were made by the local goalie.

Once when Evans, who was in goal for the visitors, tossed the ball into the air in attempting to clear, he nearly met with disaster, for Fandler of Edmonton, ran in fast and the ball just missed the goal.

Starting the second half with every confidence, the Edmonton team continued to press and they were soon rewarded. Fandler, centre forward, beating Evans after the latter had cleared on a hot shot from Ross, outside right.

THE SCORE  
One goal down, the Welshmen opened up with everything they had and the score was soon tied. Robbins, the visitors' inside right, doing the trick. The teams battled for fifteen minutes with the score deadlocked and then Robbins again scored, this time getting a low fast drive past Wallis, the Edmonton goalie. The final goal of the match was the best.

The teams were: Edmonton—Wallis, Gaidart and Savage; Winters, McKay and Thompson; Ross, Graham, Fandler, Hall and Minchin.

Wales—Evans; Russell and Lumberg; Pugh, Keenor and Bennion; Vizard, Robbins, Davies, Jones and Williams.

Poughkeepsie, N.Y., June 25.—Riding the crest of the roughest water in the thirty-four years of regatta history, Columbia's great varsity crew swept to a smashing victory in the gathering dusk last night to win the intercollegiate championship of the United States for the second time in three years.

In a race which saw the dope-knave overboard by the antics of old man river, the Columbians rowed to a decisive victory by three lengths over a surprising University of Washington boat as disaster overtook California, the world's champions of 1928, and three other crews.

Only five of the record fleet of nine shells that went to the starting line in semi-darkness weathered the rough and rugged rap over the foul route of four miles, California, the favorite with Columbia and the defending champions, swamped half a mile from the finish after failing to be a contender at any stage of the long pull.

## CANADIAN OARSMEN APPEAR IN FINE SHAPE FOR HENLEY

Joe Wright Jr., Holder of Diamond Sculls, and Jack Guest, His Clubmate, Row Full Course in Splendid Time; Many English Critics Think Guest May Win Title This Year; Argonaut Club Eight of Toronto Gives Impressive Exhibition.

Henley, Eng., June 25.—Canada's entrants in the famous Henley Regatta accomplished fine practice work to-day. Joe Wright Jr., and Jack Guest, single sculls entrants, each had two outings, Wright rowing the full course in 8 minutes and 17 seconds or seven seconds faster than when he won the Diamond Sculls last year.

The Argonaut Club eight from Toronto, under favorable weather conditions, gave one of the most impressive exhibitions of rowing yet seen here. They rowed the full grand challenge cup course in 6 minutes, 59 seconds, only eight seconds outside the record.

Getting away to a fine start, the Argos stroked forty-one in the first minute and kept going in good style. For the last half of the course they maintained a fast clip, averaging thirty-five strokes to the minute and working up to nearly forty for the final burst to pass the winning post. Their form was most impressive and if they continue to improve it is probable they will take the cup to Canada for the first time.

Their most formidable opponents are probably the Columbia University crew from New York, who won the U.S. Bert Barry, world's professional champion, who is being coached by Bert Barry, world's professional champion, and Guest, seemed to be in fine condition. Guest has been practicing this side for three months under the able, well-known Henley winning man, and has shown great improvement over last year.

Many of the English critics think he may take the cup over the sculls championship from his clubmate.

## COLUMBIA CREW WINS HONORS

Capture U.S. Collegiate Rowing Title in Smashing Victory on Rough River

Poughkeepsie, N.Y., June 25.—Riding the crest of the roughest water in the thirty-four years of regatta history, Columbia's great varsity crew swept to a smashing victory in the gathering dusk last night to win the intercollegiate championship of the United States for the second time in three years.

## Both Fighters Ready For Gong Thursday Night

New York, June 25.—Paulino Uzcudun and Max Schmeling, rivals in the season's most important heavyweight argument, have come to the end of their long training grind and are waiting patiently for the bell that will send them forth on the first round of their fifteen-round battle at the Yankee Stadium Thursday night.

With the fight still three days away, sponsors of the annual milk fund charity boxing show have announced that receipts already have passed the \$300,000 mark.

Both the "German Dempsey" and his Spanish welterweight rival have reached top form and will take it easy for the next few days at their training camps in Lakewood, N.J., and Hoozie, N.Y.

Schmeling's fine record in this country the betting gent's persist in placing him on the short end of the betting at odds of 6-5.

## CHAMPS HIT STRIDE AND WIN ANOTHER

Sons of Canada, Last Year's Ball Champions, Defeat Tillicums 6-2

Sidney Now Leading League By Small Margin; Parfitt Pitches Good Game

Sons of Canada, last year's champions of the Senior Amateur Baseball League appear to have at last hit their stride this season as last night at the Royal Athletic Park they won their third game in four starts defeating the league-leading Tillicums 6-2.

Out of their last four games played, the Canadians have won three, while the other was tied 4-4. By their victory the Sons dropped the Tillicums from the lead, Sidney now occupying first place, while they are tied with the Eagles for third position.

Ray Parfitt who carried out the pitching duties for the Sons worked well, allowing seven scattered hits, while he struck out eight. Tommy Green, on the mound for the Tillicums, was nipped for fifteen safe blows while he struck out four. Only one error was chalked up against the Sons, while the Tillicums committed three.

In the first inning the Tillicums got away to a one-run lead when Craig singled, was sacrificed to second, and scored on a safe hit by Green. The Sons tied the count in the third on a single by Colin Campbell, a sacrifice by Bacon and another safe hit by Parfitt.

The Tillicums again snared a one-run lead in their half of the third. Dunnett was safe on an error by Parfitt, was sacrificed to second by Craig, scoring on Hilton's two-base clout to left field.

## John Proctor Is Beaten in Quebec Tennis Tournament

Montreal, June 25.—With one exception, seeded players survived the round of the play in the men's singles of the provincial tennis championship tournament here yesterday. John Proctor, Toronto, and formerly of Victoria, was the only seeded player to drop by the wayside, Paul Fontaine, Outremont, defeating the Queen City player, 3-6, 6-1, 6-4.

Gilbert H. Walter Martin and Leroy Rennie, all of Toronto, who comprise the main out-of-town contingent in the event, played two rounds each and came through in most convincing style.

# Victoria Boats to Take Part In Big Vancouver Regatta

Ketches, Yawls, Cruisers and Star Boats From Royal Victoria Yacht Club Will Compete in Annual Pacific International Association's Races at English Bay From June 30 to July 3; Harry Barnes's Yawl Minena and Dr. J. Harper's Ketch Fayth Considered Strong Entries in Lipton Cup Race.

With their hopes based on the performances of the Fayth and Minena during the early part of this season, a strong fleet of Victoria yachtsmen will invade Vancouver from June 30 to July 3 in quest of the Lipton Cup and other trophies at stake at the Pacific International Yachting Association's annual regatta, to be held at English Bay.

Ketches, yawls, cruisers and star boats will make the trip and take part in the events scheduled for the four days. The Lipton Cup race for yawls, ketches and schooners will be held on Sunday, June 30, from Gossip Reef in Active Pass to English Bay. Harry Barnes's yawl Minena and Dr. J. Harper's ketch Fayth, are considered the strongest local entries for this event.

## PANUCO WINS TO SURPRISE AT AQUEDUCT

Added Starter Flashes Speedy Form in Speculation Claiming Handicap

New York, June 25.—It is not often that an added starter wins a horse race, and it is still rarer for an added starter to win by four lengths. But that is just what Panuco did in the Speculation Handicap at Aqueduct yesterday.

B. F. Byers selected the spot for his horse, which had performed most brilliantly on the Canadian tracks, and then told Jockey J. McCoy to go out there and ride. From the start McCoy obeyed instructions to the letter. The start was poor, but with a few strides Panuco was out in front, opening a wide lead. Running the first half mile in 46 2-5, he continued the killing pace to win by four lengths. The time for the mile was 1:39.

Trailing the Byers color bearer was the Sagamore Stable's three-year-old Coin Collector, a length and one-half in front of the Greenlee stable's Valcor. Byers' judgment in selecting the race rewarded him \$4,400.

AN UPSET  
Princess Edith rather mused up affairs for the experts in the Garden City purse at Washington Park, when she carried the Royal Stable colors home in front of a field of six veteran runners. The daughter of Prince Pal, a three-year-old, was the youngest in the sextette of starters, but she beat P. P. Krist's Blushing Maiden by a length. E. R. Bradley's Beauregard, which set the pace to the final drive, tired rapidly, but managed to save the short end of the purse by a length and a half. Princess Edith was not very well liked with the result that she paid her backers \$8.68 for a \$2 mutuel ticket. She stepped the mile in 1:39, the same time as made by Panuco at Aqueduct.

R. S. Clarke's three-year-old Yucatan proved the best of a large field of maidens in the La range purse over the mile and seventy yards route at Latonia. But it was only by stages a long hard drive that he was able to beat H. P. Hendley's Peggy Mac to the finish wire by a head. J. D. Doyle's Peter Dink, who won with a wide margin his position, came strong through the stretch to take down show money. Scott, the favorite, weakened badly in the mile and finished in sixth place.

Yucatan stepped the distance in 1:43 3-5 and paid his backers \$5.36 for a \$2 ticket.

HERADE IS WINNER  
The Mullrick Stable's five-year-old Herade accounted for the feature at Fairmount Park, a gallop of a mile and seventy yards for three-year-olds and up. E. McCuan's Morocco was second, and Corbeau, from the F. Dunn stable third. Herade, who led the route in the slow time of 1:47 3-5 paid her backers \$5.78 for a \$2 investment.

## C'S HOPE TO STOP CHAMPS

Will Meet Tillicums To-morrow Afternoon in Wednesday Cricket League

Tillicums, leaders of the Wednesday Cricket League, will meet the Five C's to-morrow afternoon, at Work Point barracks. In the other game the Hudson's Bay will tackle the T's and V's at Beacon Hill. Both matches will commence at 2:30 o'clock.

With a greatly strengthened eleven the C's hope to hand the league champions their first defeat of the season. The Tillicums will field their usual team. At Beacon Hill the Hudson's Bay will be after a win in order to remain in second place.

The Metropolitan United Church School will hold their annual picnic on Dominion Day at Taylor's Beach, Metchem. This event is becoming increasingly popular and the congregation will unite with the school this year. The general superintendent, R. J. C. Smith, and staff hope that enough tickets will be sold to cover transportation, which will be by Vancouver Island Coach Lines, and other expenses. Buses will leave the church at 9:30 a.m., returning will leave picnic grounds 7:30 p.m. An excellent programme is being arranged by the young people under the leadership of Mr. H. Masters. It is hoped that all those going out by private car will bring some one along with them as the buses will only make one trip in the morning and one in the evening.

## OREGON STAR IS DEFEATED

Bradshaw Harrison Beaten  
By Donald Cram in Inter-collegiate Tennis

Haverford, Pa., June 25.—The number of contestants for the third round of the intercollegiate tennis championship at the Merion Cricket Club was thirty-one, having been reduced from 167.

One of the seeded stars fell by the wayside in the second round. Donald Cram, Vanderbilt University, defeated Bradshaw Harrison, University of Oregon, seeded No. 7, by 6-7, 6-3, 6-0.

The number one seeded player, defending his title, Julius Seligson, of Lehigh, celebrated two matches to reach the third round.

Other survivors included John Doe, Stanford; Berkeley Bell, University of Texas; George Mangin and Emmett Pare, Georgetown; Harris Goggeshall, Grinnell; Benjamin Gorchakoff, Occidental College, and the four players from Oxford and Cambridge Universities of England, Paul De Ricou, and E. C. Mather, E. R. Avery and R. E. T. Young.

A "house of art" will be established in Montevideo, Uruguay, in which symphonies, concerts, choruses and motion pictures will be held.

Milk is very quick to absorb odors; it should not be kept near such foods as onions or garlic.

## SOFTBALL

Handing Marigold a 6-3 beating, Y.M.C.A. softballers won their way into a tie for first place in the West-home League at Work Point Barracks last night.

At the end of the third inning the "Y" had a five-run lead over their opponents. Marigold scored their runs in the eighth.

Albert Acres pitched a good game for the winners.

Crossing the plate in the ninth inning, Jones gave Victoria West a 6-5 victory over The Times. The win gave the Wests third place in the league.

Scoring a 21-6 victory over The Colonist, Colwood Wood Company left the cellar place in the league. Colwood scored eleven runs in the first inning.

The Naval Barracks took a 19-4 beating at the hands of H.M.C.S. Vancouver in the "B" section of the City League, while the Huskies beat Oaklands 13-10 in another game.

**TO-NIGHT'S GAMES**

Johnson Brothers vs. Hillcrest, Work Point Barracks, Spanish "A" vs. Forest, Victoria West Park; Azetecs vs. Albion, Store, lower diamond, Central Park; Queens vs. Hudson's Bay, Quadra and Queens grounds; Spanish "B" vs. Vancouver Province, upper diamond, Central Park.

Tenders for the construction of a new grandstand at the Royal Athletic Park must be in by June 26, City Purchasing Agent E. S. Mitchell reminds contractors. Bids for advertising space on the backs of water bills must be returned by 4 p.m., July 2 and tenders for electrical wiring at the Public Market will close at noon, June 27.

## Double Play With Bases Full Gives A's Another Win

Philadelphia Increases Lead Over Idle New York Yankees by Close Victory Over Boston; St. Louis Browns Drop Game to Cleveland to Enable Yanks to Hold Second Place; Brooklyn Continues to Hold "Jinx" on New York Giants; Chicago Cubs Salvage One Game of Series With Pittsburgh.

If they could play the New York Giants every day, Uncle Wilbert Robinson's Brooklyn Dodgers would be leading the National League instead of languishing in fifth place, only a hop, step and jump out of the cellar.

However, though the Giants may be for the rest of the league, they're only "cousins" to the Dodgers, who beat their Manhattan rivals yesterday, 5-2, for the second straight day, the fourth time in their four last meetings and the eighth time out of thirteen games this season.

Just when it seems that John McGraw's hirings are about to go some, where, the Dodgers come along and decide the Giants have gone far enough. Yesterday's contest saw William Watson Clark and "Jug" Johnson Morrison limit the Giants to six hits. Clark pitched great ball until the eighth, the Giants' two runs in the first inning coming over on Freddie Lindstrom's fluke homer, a pop fly, which the wind carried into the grandstands in the eighth, however, Clark weakened and Morrison was summoned to the rescue.

Clark got out of a bad hole and held the Giants hitless for the rest of the game.

The Robins bunched eight of their ten hits off Carl Hubbell, Jack Scott and Carl Mays in three innings for all their runs. Rube Bressler was the batting star with four straight singles that accounted for three Dodger runs.

**CUBS SALVAGE ONE**

In the only other National League engagement the Chicago Cubs salvaged one game out of the Pittsburgh series, beating the Pirates 4-3, chiefly because of the eight hits Ervyn Bram allowed.

Three homers by Cuyler, Wilson and Hornsby helped the Cubs win. Bram himself hit a homer in the fifth, with one on, to give the Pirates a lead that was only temporary.

The Cubs left the game a game and a half back of Pittsburgh, a game ahead of St. Louis and two games ahead of the Giants.

Rain halted the other scheduled league game between Boston and Philadelphia with the Braves leading 2-1 in the third inning.

In the American League the Philadelphia Athletics increased their lead over the idle New York Yankees to nine full games by noosing out the Boston Red Sox 5-4. A double play with the bases full saved the day for the Mackmen in the ninth inning and enabled Rommel to chalk up his seventh straight triumph without a defeat.

Although late the Yankees regained undisputed possession of second place when the St. Louis Browns, with whom they had been tied, dropped a decision to Cleveland 10-4. Crowder and Ogden were found for twelve hits including four homers, two of them by Earl Averill. Miller, Indian southpaw, kept the Browns batters in subjection except in the seventh when all the St. Louis runs were scored.

At Detroit the Tigers pounded Faber and Dugan for thirteen hits and scored an easy 13-4 victory over the Chicago White Sox. Emil Yde, former Pirate southpaw, gave the Sox ten hits but tightened up in the pinches.

## EXTRA SETS ARE FEATURE

Thrilling Matches Seen Yesterday in Victoria Tennis Club Championship

A number of outstanding matches featured the play at the Victoria Tennis Courts yesterday. Four matches went to extra sets, while five others were on the close side.

Marsh Gordon who is playing in defense of his singles title, showed remarkable form to defeat Eric McCallum. Gordon is showing better form than he has for several years and seems to be in for a good year. He is now in the finals.

Reg. Corfield and Peter Phillips had some exceptionally long rallies in their game but it was Corfield who always finished the rally. He won the second set easily. He now meets Hooking in a semi-final match for the right to play Gordon in the finals on Saturday.

Doreen Swaine put up a hard fight before going under to Miss McLeod in the ladies' handicap singles. Miss Swaine was down four points in each game. Both sets were long, the scores being 6-4 and 9-7.

**MONA MILLER LOSES**

Mona Miller was off her game, losing to Miss French who had a four-point advantage.

Miss Gibson with a point advantage won a three-set match with Miss Bird, the scores being 3-6, 6-1, 6-4. Miss Gibson overcame a lead of one set and then won the next handily although the third was well contested.

Jerry Bowden had a torrid struggle with H. C. Hills before obtaining a decision. The scores were 9-7, 6-2.

Ismay weakened after obtaining a good lead in both sets and lost to Hooking in a handicap fixture.

Mary Campbell and Bert Plett finished off the last set of their match which was postponed from Saturday. They won from John List and George Phillips in the third set, the scores being 6-4, 6-8, 6-4. This match was one of the best mixed battles in the tournament.

Miss Lang and Miss Gibson entered the final round of the ladies' handicap doubles by defeating Mrs. List and Mrs. Ismay in two close sets, 6-4 and 7-5. They received two points in each game while their opponents were minus another point.

Another mixed doubles match that attracted considerable attention was that in which Mrs. G. S. Ford and Ford defeated Miss Anthony and Mitchell. These three played the scores being 6-3, 6-6, 6-0. Both couples had the same handicap.

**LADIES' HANDICAP SINGLES**

Miss McLeod, plus 30, defeated Miss Swaine, minus 30, 6-4, 9-7.

Miss Gibson, plus 30, defeated Miss Bird, plus 15, 1-6, 6-1, 6-4.

Miss French, plus 15, defeated Miss Miller, minus 40, 6-0, 6-1.

**MEN'S HANDICAP DOUBLES**

Agar and Merston, minus 30, defeated Berrill and Mitchell, scratch, 6-3, 6-6.

G. N. Worsley and Reide, plus 15, defeated Backler and H. T. Matson, minus 15, 6-4, 3-6, 6-4.

**LADIES' HANDICAP DOUBLES**

Miss Gibson and Miss Lang, plus 30, defeated Mrs. Ismay and Mrs. List, minus 15, 6-4, 7-5.

**MIXED HANDICAP DOUBLES**

Mr. and Mrs. Denniston, plus 15, defeated Mrs. Leeming and Walton, scratch, 7-5, 6-3.

Miss M. Campbell and Plett, minus 40, defeated Mrs. List and G. W. Phillips, scratch, 6-4, 6-8, 6-4.

Mrs. G. S. Ford and Ford, plus 15, defeated Miss Anthony and Mitchell, plus 15, 6-3, 8-6, 6-0.

**MEN'S HANDICAP SINGLES**

**SONS GO AHEAD**

From this stage on the clubmen were held scoreless six big goose eggs being hoisted up on the scoreboard against their name. The Sons continued to score, adding one run in the fourth and another in the fifth. In order to make their lead more safe the Canadians scored another run in the eighth and then sent two runners across the plate in the ninth to bring their total up to six.

Green and Bacon shared the batting honors for the evening each with three hits out of four trips to the rubber.

## Is It Safe?

Balloon tires, 4-wheel brakes, smooth highways make fast driving comparatively safe for the motorist—but is it safe for the motor?

Even at 35 miles per hour the heat and friction is great enough to break down the protecting qualities of most oils.

When the speedometer creeps up to 55 and more and the explosions almost fuse into a flame of white heat—then your engine is in real danger of a burnt-out bearing or scored cylinders—unless you give it the VEEDOL film of protection that is tested to withstand heat a 100° hotter than the hottest place in the motor.

### Cornish Wizard Visits Solarium

Mr. Al. Candra Solarium was visited last week by F. Merryfield, "The Cornish Wizard" and his magical family, composed of Violet and little Miss Frances Merryfield. Last night Mr. Merryfield went to the Protestant Orphan-

age, Hillside Avenue, and from there to New Westminster and Vancouver homes. It is the "Wizard's" delight to make the rounds of the homes once a year during his three-weeks' holidays from the city Fire Department. Thanks were extended to the following for their donations of candles for the Solarium: Mr. F. Baynes, Victoria Candy Kitchen; Stevenson's Confectionery, Wiper's Confectionery and also Mr. Watson, manager of Hudson's Bay Company.

### GYROS TOLD OF FARM PROBLEMS

C. E. Whitney-Griffiths Addresses Club Members at Luncheon

The agricultural industry of British Columbia must be left alone to say what is best for its own and for its own sake and sake of the country must be well organized, declared C. E. Whitney-Griffiths in an address before the Gyro Club at luncheon in the Chamber of Commerce cafe yesterday.

Mr. Griffiths spoke of agriculture as the second ranking industry of the province, valued at \$80,000,000 yearly. During the course of his remarks he referred to problems which face the farmer of B.C. and of the work which was being done through farmers' organizations to solve them.

At one time the Government had fostered its own opinions on the agriculture but now listened to the voice of the farmers themselves, he declared.

**ORIENTAL PROBLEM**  
He dealt with the Oriental problem in its relation to agriculture. Surveys had been made by the Oriental and this was a situation which demanded organized effort from all public bodies. In the retail business especially it had developed into a serious question.

### AGAIN NORTHWEST MOOSE SECRETARY

**J. F. PEARCE**  
of this city, who was last week re-elected to the position of secretary-treasurer of the Northwest Moose Association for a three-year term. Mr. Pearce has been secretary of the local Moose organization for the last nine years and also supervisor for British Columbia. He is a big man in the Moose ranks.

cal services and settlement problems were outlined by the speaker who went on to point out the contrast between Canada and Great Britain in respect of agriculture. There was a "permanent" agricultural population in England, he said, some following fathers on the farms while the youths not occupied in this way were not willing to venture to Canada.

Imports of butter from Australia and New Zealand as it affected the dairying section of the agricultural industry was lightly touched upon by Mr. Griffiths. He referred to efforts which were being made to have a protective tariff imposed.

In conclusion he appealed to the members of the club to thoroughly inquire into various farm problems and lend their support in having them remedied.

The thanks of the club were tendered to Mr. Griffiths by Frank Barton, vice-president, who acted as chairman.

A. B. Christopher, newly-elected to the club, was welcomed by Mr. Barton.

Tentative arrangements for the club's annual picnic in July were discussed.

### MISS SAUNDERS IS SISTERS' PRESIDENT

Overseas Club Elect Officers and Honor Miss M. Hodge With Presentation

The Overseas Sisters' Club held its annual tea Saturday afternoon in the drawing-room of the Empress Hotel when the guest of honor, Miss Meta Hodge, M.C., was presented with a book and a corsage bouquet of roses and sweet peas with maiden hair. Miss Hodge, who is a graduate of Winnipeg General Hospital, served with distinction overseas, being mentioned in dispatches and receiving the Military Cross for bravery during the raid on the Canadian hospital at Doullens, France.

For several years she has been organizing secretary of the Junior Red Cross for British Columbia. She leaves tomorrow to attend the International Convention of Nurses at Montreal, as representative of the graduate nurses of British Columbia. She is also a representative of the Overseas Sisters' Clubs of Vancouver and Victoria.

The officers of the Overseas Club chosen for the year were: Miss E. Saunders, president; Miss E. Frank, vice-president; Miss C. Craighead, secretary; Miss L. Gregory-Allen, treasurer.

Those present were: Miss Saunders, Mesdames R. B. Ridd, Walker, Ball and the Misses Craighead, McBride, Kay, Franks, Benzie, Mowbray, Morrison, Forbes and Gregory-Allen.

### Miss McDonald Alumnae President

St. Joseph's Alumnae Plan Many Activities For Coming Year

Miss Eunice McDonald was re-elected president of St. Joseph's Alumnae Association at the annual meeting of the Alumnae held on Saturday afternoon in the recreation room at St. Joseph's Hospital. The other officers for the coming year are: First vice-president, Mrs. C. McFadden; second vice-president, Mrs. F. M. Bryant; secretary, re-elected, Miss Madge Ashley; corresponding secretary, Miss Phyllis Wightman; and treasurer, re-elected, Mrs. C. Lewis.

Arrangements were made for the activities of the Alumnae for the coming year, which will include a dance to be held in September, a bazaar in October, a bridge at the home of Mrs. F. M. Bryant in November, a sale of home-cooking in January, a card party in the new Nurses' Home in February, and a silver tea in May at the home of Mrs. J. M. Fowler.

Sister Superior, Sister Mary Mildred, on behalf of the Sisters of St. Ann, voiced their appreciation of the support and help given the hospital by the Alumnae and extended their appreciation of the furnishing of a room in the new wing by the Alumnae.

Later, the members of the Alumnae were the guests of the Sisters at supper, which was served in the new nurses' dining-room.

**Fleet Foot Scores in France**

ON the playgrounds of France, grown-ups and children alike favor Fleet Foot. Hardly a country to-day that hasn't its Fleet Foot adherents.

For Fleet Foot is the shoe for the "great outdoors". Fleet Foot means comfort — wear — style — everything a good shoe should possess.

It is amazing how tough are the light Crepe or Re-Ly-On soles, how sure their grip, how resilient their tread. Fleet Foot shoes fit snugly and allow full play to foot and ankle muscles.

For tennis or badminton, treat yourself to a pair of Fleet Foot "Cushion" shoes. They are unequalled for comfort and wear. A 'tween sole cushion (process patented) runs the full length of the shoe, between the outside and insole. This is made to absorb all the shocks and jars.

The "Cushion" shoe is smart, in pure white with white rubber trim and white crepe soles. Oxfords for women, oxfords and laced-to-the-toe blucher balm for men.

## CARD OF THANKS

Mr. and Mrs. Thomas Mauger and family wish to thank the Sisters and nurses of St. Joseph's Hospital and the many friends for their kindness and words of sympathy, also for the many beautiful flowers sent during their recent sad bereavement.

## IN MEMORIAM

TURNER—In ever loving memory of our dear son, Richard (Dickie) Turner, who died June 25, 1925.

To-day recalls a memory  
Of a loved one gone to rest.  
And those who think of him to-day  
Are those who loved him best.

May Heaven's winds blow softly  
O'er that sweet and hallowed spot,  
Where we love him sleeping,  
Who never will be forgot.

—Inserted by his loving Father, Mother, Brothers and Sisters.

### A HOUSE WITH LARGE ROOMS

appeals to most wives; many husbands like a large garden with fruit trees. We now want to sell a house on a good corner in the Fernwood district which answers to the requirements of a family. It is exceptionally built. The main floor contains a conservatory and small den as well as the usual living-room. Upstairs there is one large bedroom with dressing-room and cupboard, two other good sized bedrooms, a bathroom and separate toilet. The basement is solidly constructed, with hot air furnace, jam room and toilet. The ground is large and level, with a chicken house, good cement walks and adequate fencing. Property must have been at \$2,500, but we will sell it for \$2,000. Moderate terms can be given.

### BRAKE TESTS

ARE WELCOMED

Motorists of City Co-operate in Safety First Campaign

White lines across the street and several yards of black skid marks denoted the brake-testing stations on Quadra Street and Gorge Road after the first day yesterday of the campaign in connection with "Safety Week." All motorists traveling to and from the city by these two highways were stopped during the day, and if

the vehicles stopped properly in accordance with the tests the yellow signal of "Brakes O.K." was plastered on the windshield.

## NEWS IN BRIEF

A roof fire at 3016 Admirals Road was quickly extinguished by the fire department at 1:26 p.m. to-day.

Grant Hall, first vice-president of the Canadian Pacific Railway, will visit Victoria during the course of his present trip. The date of his arrival is at present indefinite.

Local Union No. 310, bus drivers, chauffeurs, teamsters and helpers will meet to-night at St. David's Hall, Douglas Street, over Hat's Hardware Store.

The thanks of The Times editorial staff are extended to the B.C. Fruitgrowers' Association for the gift of a crate of luscious, red strawberries received at the office to-day.

Thomas N. Merrick was fined \$25 in Esquimalt Police Court yesterday afternoon when he pleaded guilty to a charge of driving an automobile to the common danger on Esquimalt Road, June 20.

A hand concert will be given by the Victoria Fire Department Band tomorrow night on the new bandstand at the corner of Pandora Avenue and Blanshard Street, commencing at 7:30 o'clock.

The Young People's Society of the Eskine Presbyterian Church is holding a strawberry social on Wednesday afternoon from 3 to 6:30 o'clock at the home of Mrs. Mamm, corner of Eldon Place and Burnside Road.

Mr. Justice Gregory in Supreme Court this morning heard the undetected suit of John Day Jr. for divorce from Agnes Day, and granted a decree nisi with custody of the child, E. L. Tait represented the petitioner.

Mrs. J. Quinn, Constance Avenue, sustained minor injuries when a car driven by Mr. Quinn collided with a Central Transfer truck at the intersection of Lyall and Constance Streets shortly after 7 o'clock last night.

Rev. Dr. John Campbell, Windsor Road, has been appointed supervising examiner of naval cadet candidates under the school board of Oxford and Cambridge, England, according to advice received here. The recommendation was made by the Civil Service Commissioner of Canada.

As a forerunner of what should prove a good season for the fruit, Mrs. M. E. Dewey, 637 Rupert Street, reports several raspberries ripe on the canes at her home. Although this is considerably in advance of the regular season, the outlook is promising for this fruit. Last year Mrs. Dewey had berries ripe at approximately the same date.

When a truck he was driving crashed into a telephone pole on Esquimalt Road and dropped nearly twelve feet to a residential lot, Harold Curran, 2227 Oak Bay Avenue, miraculously escaped serious injury yesterday.

The accident occurred at the corner of Macaulay Street and Esquimalt Road, according to a report made to Chief of Police John Acreman.

In Supreme Court this morning Mr. Justice Gregory commenced hearing the suit of C. J. V. Spratt and the Victoria Machinery Depot Limited against the Soan River Lumber Company Limited. Plaintiffs seek possession of a lumber mill near Port Alberni, under lease to the defendants, who are Hindus. Damages totaling nearly \$10,000 are also sought. A. D. Macfarlane, K.C., appeared for plaintiffs and A. D. McNeill for the defence.

On Wednesday evening C. H. Rowles will complete arrangements for the dance and concert to be held at the Amphion Hall, Yates Street, on Friday. It will be a farewell concert given by the Victoria Boys' Orchestra and other talent. Mr. Rowles intends to travel across Canada on a motorcycle of the one-cylinder type and to advertise Victoria. He will talk wherever he stops and will have Victoria signs on his motorcycle. He plans to take his cycle to England with him and advertise Victoria in the Old Country. A good programme has been arranged for the concert party. Mrs. Holt's four-piece orchestra will provide the music for the dance.

Harris, Capt. T. Thomson, Capt. F. Cole and George Roberts. Interment was in the Royal Oak Burial Park.

## CAMP CALL BEING SENT OUT BY "Y"

Preparations For Beaver Lake Colony Nearly Completed; Registrations Sought

Boys Sure of Fine Programme of Activity While Living Under Canvas

Young boys of Victoria are invited to join members of the Y.M.C.A. summer camp committee under canvas at Beaver Lake.

Preparations are almost complete for the Beaver Lake settlement, which will open July 8 and continue for four weeks.

Enjoyable programmes have been outlined for the instruction and amusement of the boys while in camp, and will be carried out under careful supervision by the leaders of the tent colony.

**FINE PROGRAMMES**  
Included in the activities of the holiday are hikes into the country surrounding Beaver Lake, daily swims in the warm weather, swimming and life-saving instruction, campfire programmes and countless other pastimes that are sure to develop the camp and body of the young campers.

The local tent colony is one of an international chain. In different centres of the North American continent, Europe and the Far East, Y.M.C.A.'s hold these camps to afford boys and young men an opportunity to enjoy the outdoor life and to mingle with companions of their own age. During their gatherings, the boys discuss their problems around the campfire and are thought along correct channels of thought by leaders chosen by the supervisors from the young men's organizations of different cities.

**JAPANESE CAMP**  
This year a special attempt will be made to secure a Canadian representative to attend the International Conference in Japan. Although the local secretary's hopes are not very sanguine over the possibilities of obtaining a local boy to visit the Oriental gathering, he is doing his utmost to give "any" Victorian the chance to take the place of a Canadian delegate to the camp, and is desirous of hearing from any who could make the trip.

Under the capable management of Vivian Showmaker, boys' work secretary of the Y.M.C.A., committees are being chosen to care for the different features of the camp at Beaver Lake. A good cook has been secured, and the boys are assured of clean, wholesome food during their holiday. All games will be staged under the supervision of capable young men. Hikes into the woods for informal classes in nature study will be directed by Rev. Robert Connell, well-known naturalist of the city. Scores of other interesting programmes promise to make this year's camp an outstanding success.

**"Molton Combe" To Be Scene of Fete**  
Under the auspices of the Gonzales Lodge, I.O.O.F., the garden fete to be held to-morrow afternoon at Molton Combe, the home of Mrs. Curtis Sampson, Newport Avenue, kindly loaned by Mrs. Sampson for the occasion, promises to be a successful rally and financially. The fete will open at 2:30 o'clock.

In addition to stalls of home-made candy and ice cream, the "lady with the thousand pockets" will have many surprise packets for the visitors, and Miss Prior will sing Rumanian songs in costume, accompanied by Miss Mary Thomas, harpist.

Members will welcome visitors to Victoria. Tea will be served on the lawn under the trees, in the garden which is one of the most attractive in Oak Bay.

## DR. W. CULLIS IS HIGHLY HONORED

Famous Woman Educationist Who Was Here in April, Gets University Post

Dr. Winnifred Cullis, C.B.E., was recently appointed Deputy Chairman of the Education at London University; distinction never before conferred upon a woman.

Dr. Cullis visited Victoria at the time of the Educational Conference and addressed the assemblies in Victoria and Vancouver.

Dr. Cullis's appointment, which coincides with the inauguration of the new constitution of the University, makes yet a further stage in the advance of

Dr. Winnifred Cullis, C.B.E., feminism in university life. Though in a comparatively short period, many women have attained to high academic distinction, they have been accorded little part in university government.

Dr. Cullis is professor physiology in the University of London and has taken a leading part in organizing and inspiring the International Federation of University Women, which has a worldwide membership.

Dr. Cullis was promoted from O.B.E. to C.B.E. in this year's honor's list and is the youngest daughter of Mr. F. J. Cullis of Gloucester, England.

## MORTGAGES NOT KEY TO WORTH

Insurance Company Loans Indicate Realty Values; Appeal Court Assured

Purchase of a frame apartment block in Kitsilano, asserted to have been made on representations that the Great West Life Assurance Company had two mortgages totaling \$18,000 on the property, was before the British Columbia Court of Appeal this morning. The case was argued by Mr. J. A. McDonald, plaintiff, and Mr. J. A. McDonald, defendant, who sought reversal of a decision of Mr. Justice D. A. McDonald which favored the defendant respondents, Eliza Black and Bell-Ing, Creery and Company Limited.

The case held two points of major interest. Mr. Justice McDonald had first found for the plaintiff, but later reversed his judgment when a missing document was produced to show that the plaintiff had knowledge that the Great West Life mortgage was only \$9,000.

The second mortgage, which in fact protected an unpaid purchase balance of \$9,000, was not denied to have been represented by the realty salesman as being a loan from the insurance company. The salesman was not called to testify by the defence. The gravamen of the plaintiff's case lay in the fact that loans were only secured by the Great West Life on a maximum of fifty per cent of a very conservative valuation.

## DEATH SUMMONS COL. COVENTRY

Brother of Hon. T. G. Coventry of Victoria Passes After Adventurous Career

Gallant Soldier and Famous Sportsman Mourned in England

Sympathy will be extended by friends in Victoria to Hon. T. G. Coventry on the news of the death of his brother, Colonel the Hon. C. J. Coventry, a gallant soldier, whose colorful career had led him into stirring adventures in many parts of the world, and who was known throughout England as a sterling sportsman and a fearless rider. He was the second son of Earl and Countess Coventry, and passed away at Earl's Croome in the early part of this month.

**IN SOUTH AFRICA**  
Colonel Coventry held a commission in the Worcestershire for some time and afterwards in the Queen's Own Worcestershire Yeomanry. He served with the Bechuanaland police, and when Dr. Starr Jameson determined to make his ill-fated incursion into the Transvaal, shared his fortunes. With a scratch lot of Uitlanders, numbering 464 men, with eight maxims and three light field guns, the gallant "Dr. Jim" invaded the Transvaal on Sunday night, December 29, 1895, first cutting the wires to Pretoria to prevent any recall. The invasion was a short-lived one, and Dr. Jameson had to surrender at Doornkop on the order of the British High Commissioner.

There was a sharp fight, however, in which it was at first reported that Colonel Coventry—he ranked as major there—was among the killed. This was subsequently corrected, but not in time to prevent Queen Victoria sending a touching message of sympathy to the Earl and Countess, and the holding of a memorial service in London. News of his safety—though wounded—reached Croome Court in time to turn the memorial service there into one of thanksgiving.

For his part in the campaign he was sentenced to five months' imprisonment. The confinement affected his health, as he had not properly recovered from his wound. His condition in Holloway Prison became grave, and he was released after serving only twenty-four days. He gradually recovered health at Croome Court.

**IN THE GREAT WAR**  
His services in the "Dark Continent" included the Matabele Expedition, 1893; Nigeria Expedition, 1898-99, and some minor adventures. When the Great War broke out he was in command of a squadron of the Worcestershire Yeomanry and accompanied it to Egypt and Gallipoli, and shared its fortunes in the east. He was in the fighting against the Turks at Katra, 1916, and was among the few who survived the surrender there. He mentioned in dispatches, and received the 1914-15 Star, British War Medal, and Victory Medal, and in 1923 he received the C.B. After the conversion of the Yeomanry into Royal Field Artillery he commanded the new corps.

At the Katia disaster he was taken prisoner by the Turks and remained a prisoner until the campaign with the Turks ended.

After the war he continued to take a great interest in the Worcestershire Yeomanry, which in 1920 became the 100th Brigade, B.F.A., and was promoted colonel. His tenure of command came to an end in 1925, and he was made honorary colonel of the regiment on April 1, 1927.

Known to racegoers all over the country as a jockey club starter, he was popular alike with owners, trainers and jockeys. A wonderfully quick eye and an abundance of native wisdom, the most restless horses combined to make him one of the best starters on the turf.

Colonel Coventry took a great interest in hunting. For twenty years he was honorary secretary to the Croome Hunt Point-to-Point races. He followed the hounds from boyhood and was known as a fearless and clever rider.

## WHITNEY LETTER

By Branson, Brown & Co. Ltd.

New York, June 25.—Whitney of the Wall Street Financial Service to-day says:

**REACTION APPEARS**  
"During the latter portion of last week you were advised that a reactionary market was in the making. To the accompaniment of 10 per cent for call money this irregular reaction put in its appearance yesterday. A continuance of this highly irregular, but nevertheless reactionary movement can be expected to continue throughout the week as preparations are made for the mid-year disbursements. It is foolish to ascribe the reactionary movement at this time to the flurry in call money. It is fully appreciated that in the last week of the half year period that this rate was bound to work higher. It is such a purely temporary thing, however, that it is simply a good excuse, and not a reason for giving the market a technical reaction which it needs to

have before the averages break through into new record ground. Since this movement is entirely temporary it should be used as it develops as an opportunity to purchase stocks which will be on their way up at the turn of the half year to new record levels.  
"I believe that perhaps the absolute top to which call money may advance is measured by a rate of approximately 15 per cent. I doubt that it will reach this figure, but it will undoubtedly fluctuate within the range of 10-15 during the course of the week. While this movement is in effect look for some radically strong spots, particularly among the standard industrial leaders, and a trend in the rail group slowly but definitely towards higher prices.  
**COMMENT**  
"If you took profits in Public Service of New Jersey when advised to replace your holdings within the range of 100-102, and having done so don't be attracted by any prices until the range of 115-120 is reached.  
"Corn Products refining has fulfilled predictions by establishing a new high record. If you don't own it use any dip below 100 to buy it, and use this sell off in Fleischmann for the same purpose.  
"In the copper group, think it advisable to use the range of 108-110 for some profit-taking in American Smelting to take some profits in Anaconda

on a scale up even if it has not reached the expected objective, use those funds to buy Kennecott Copper, particularly while available below 87, for an advance which will be quite as satisfactory as the Anaconda advance of the past two weeks.  
"For a fair speculative turn buy General Motors around 75. American Can is in process of establishing a new high record. It should be bought below 150 and when the commitment is made it should not be unmade until Can crosses 200, which it will do in the second half of this year.  
"Eisler Electric is within a fraction of its previous record, which is expected to be supplanted by a new high record to-day. In view of what has been said previously, all of the rails are, of course, a purchase."

## N.Y. Market Gossip

(By Branson, Brown & Co. Ltd.)

New York, June 25.—San Francisco: Iron Trade Review says of coast steel markets: "Demand has improved during last ten days and some fair-sized tonnages have been booked. Texas Oil Company placed six 118,000 barrel tanks involving 2,500 tons of plates, with the Lacy Mfg. Co. and will award another light calling for 3,200 tons."

Announcement made by Louis G. Kaufman, president of Chatham Phenix Bank, that agreements have been reached with A. P. Giannini and Eliza Walker to recommend plan for consolidation of Chatham Phenix and Bank of America to directors and stockholders. Mr. Kaufman to be president of consolidated institution and Mr. Walker president of affiliated securities company.  
Chesapeake and Ohio May net \$2,641,252 against \$2,317,387 in May, 1928. Five months \$11,057,090 after taxes and charges, against \$8,594,545 in first five months of 1928.

Debits to individual accounts reported by banks in leading cities for week ended June 19 were \$17,832,025, 000, increase of 14.7 per cent over preceding week, but 4.6 per cent decrease from 1928 week.  
Although individual orders for electrical equipment were restricted chiefly to miscellaneous items, the sales total in the last week, taking the country as a whole, was satisfactory. No evidence of a summer slump has yet appeared.  
The average price of crude petroleum in ten producing fields was unchanged last week from the previous week at 1.76 a barrel. The average for the corresponding period last year was 1.48 a barrel.

Over R. P. Clark's Leased Wire New York, June 25.—Reading Railroad was in demand and sold within reach of the high of this year. Considering the attractive position of all railroads and the special features attached to Reading, we believe this issue will easily cross the old high and move well above the highest price it has reached in recent years. Reading stock is worth at least \$170 per share, and when the final decision on railroad consolidations is made the stock should adjust itself to the higher levels. It is an excellent buy to-day.

American Telephone & Telegraph moved higher and is showing definite signs of developing a good sized movement. The stock was depressed owing to the rights overhanging the market. These rights expire July 1, and the stock will have more room for expansion. Considering the general advance in utilities and comparing earnings and equities with others in this field, ATT is the cheapest stock on the board. It will not take

## Stock Leaders To New Peaks; Auburn Motor Goes Over 335

(Over B.C. Bond N.Y. Wires)  
New York, June 25.—The market to-day saw some of the biggest advances in many months in some of the high-priced issues, which have been market leaders in the bull move.  
Auburn Motor soared from 317 to another new record high at 335-1/2.  
Allied Chemical soared fifteen points to a new high at 318.  
Allis-Chalmers shot up from 249 to establish a new peak at 262.  
American Can climbed five points to a new high at 150-1/2.  
General Electric raced forward from 299-1/2 to a new record high at 311.  
North American rose eight points to a new peak at 133-1/2.  
New York Central reached a new high at 208.  
Westinghouse Electric got up to 176-1/2.  
Among the others to establish new high to-day were: Atchafalaya, Chesapeake, Pennsylvania, New Haven, Atlantic Gulf, Norfolk and Western, National Dairy Products, Corn Products and Timken.

At the close the Dow Jones average of thirty industrials stood at 336.16, up 5.01 points for the day; and for twenty rails at 169.15, up 0.99 points for the day.  
Total sales for the day were 2,925,100 shares.

**ANACONDA ISSUE RUMORED**  
New York, June 25.—The Herald Tribune says that the selling noted in Anaconda was helped by the circulation of a report that a banking group was preparing to bring out a block of the stock publicly at an early date, the offering price of this stock being placed at \$115, or \$130 a share.

**TRUST BUYING COLUMBIA GAS**  
New York, June 25.—The largest investment trust on the big board is mentioned as the most important buyer of Columbia Gas in recent weeks, The American says.

**REGULAR ANACONDA DIVIDEND**  
New York, June 25.—Anaconda declared the regular quarterly dividend of \$1.75 on the increased stock place stock, payable to stock of record July 13.

New York, June 25.—It was generally agreed that the market has up to now been in face of higher money on Monday, but it was felt a policy of caution was advisable, with the possibility of higher rates due to mid-year settlements. This factor created an attitude of caution in the early dealings to-day and some irregularity was noted.  
Anaconda sold off following announcement of the \$7 dividend rate and fractional increase took place in U.S. Steel, General Motors and other industrial leaders.

Further irregularity developed following the renewal rate for call money of 10 per cent, but toward noon good demand came into evidence and special stocks became quite active, featured by American Can, which reached new high levels for present stock.  
Call money remained at 10 per cent the entire session, and following recognition that current stringency is of a temporary character, spirited gains

were scored by various leaders among the industrials.  
Continental Can followed the strength in American Can, and Corn Products received special attention in anticipation of possible increased dividend action in the near future.  
General Electric once again soared to new high prices, and New York Central reached the highest price of its history, while Chicago, Rock Island and Pacific and International Telephone all telegraphed higher.

Confident tone was displayed to the close, and general sentiment remained distinctly bullish.  
Hornblower and Weeks issued the following:  
"We would not be surprised to see money ease by the middle of this week.  
"The general market is, of course, approaching levels where resistance encountered on each earlier upswing this year and, because of this fact, it is getting more important to select commitments for individual reasons rather than follow along in the wake of general market strength."

## LOCAL CHERRIES NOW ON MARKET

Local cherries of exceptionally good quality made their first appearance on the wholesale and retail markets of this city to-day. The fruit, Beauty of Ohio variety, found a ready sale at \$2.50 per crate and many more crates are expected to come in shortly.  
The first shipment of casabas and honeydew melons arrived in the city yesterday. Strawberries advanced in price on the wholesale scale.  
Fruit and vegetables in a fair volume are passing through the local markets and are finding ready sales.

## Convertibles Absorb Bond Mart Trade

New York, June 24.—Trading in a few convertibles absorbed virtually all of the attention in to-day's generally dull bond market. Three of the share privilege issues, American Telephone 4 1/2s, Atchafalaya 4 1/2s and International Telephone 4 1/2s, accounted for nearly three-quarters of the market's entire volume in the early hours.  
The International Company's bond moved in new high ground, climbing as high as 135 1/4, while the American convertible, once more the market leader, touched a new high for the day at 132 1/2. The other two convertibles moved within a fairly wide price range. The Atchafalaya convertible at 122, was also selling at a new 1929 high, while Missouri Pacific 5 1/2s found a peak around 112.  
Aside from these popular issues, interest in bonds held at a low level. Standard Mortgages varied slightly from Saturday's close, while a few speculative obligations traded between wider limits.

Spokane International Railway 5s, weak in the last session, regained part of their loss. Ulster and Delaware 6s climbed more than 4 points on a minor transaction and East Cuba Sugar 7 1/2s advanced a point. Seaboard Adjusted 5s were firm.  
The foreign group and United States government obligations had an extremely narrow market. Copenhagen 5s, Swiss 5 1/2s and some of the Brazilian issues strengthened slightly.

## Edmonton Opens Stock Exchange

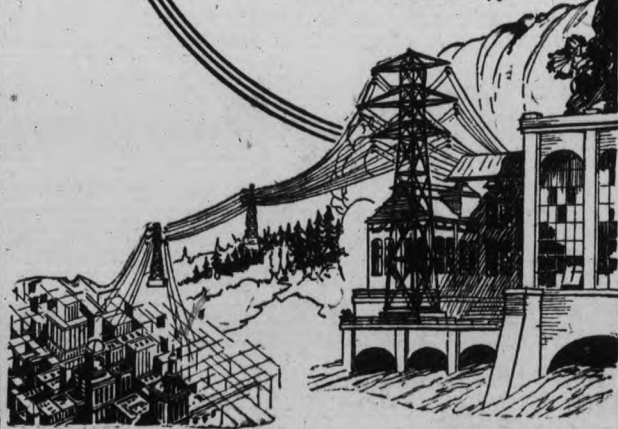

Edmonton, June 25 (By H. E. Hunninges Leased Wire)—Edmonton has joined other ambitious cities of Canada and now has a stock exchange of its own.  
It is called the Edmonton Standard Stock Exchange. It is holding sessions from 9 to 10 a.m. and these will be lengthened as volume of trading grows. Alberta Oil and British Columbia mining stocks are traded in.

much buying to carry this issue to and above its previous high levels. We recommend purchases.  
Abraham and Strauss benefited from the announcement of opposition to the merger. The stock which lost ground steadily since the merger plan was announced, has shown a good comeback after Mr. Flene declared himself opposed to the plan. We also believe that AST is in a much better position as an independent unit than as a part of a large chain organization. It caters to a high clientele which rather appreciate the individuality of the establishment. The store has shown steady progress and its expansion programme will undoubtedly bring more business and higher profits. Should the merger be definitely abandoned the stock will easily regain its old high. We advise buying AST.

Inventor Made Wonderful "Play Fire Engine."

No one ever taught little McClintock anything about mechanics. They didn't have to. Love of "making things go" was just born in him. As soon as he was able to hold tools, he started trying to make little wagons, engines, sawmills, and all sorts of things that he could run. When he was twelve years old he

decided to make a play fire engine that would really work. The boys in his neighborhood had organized a "fire brigade" and McClintock, who they fondly believed, could make anything, was selected as the very one to produce the engine.

He went down to the fire department and looked over the big red engine there, very carefully, and then he went home and tried to build one from memory. His father encouraged him, but did nothing to help him. He believed in letting the lad figure out his own problems.

It was a proud day for the neighborhood when the engine was finished. It could actually throw water thirty or forty feet!

McClintock Young, born in Washington, D.C. June 28, 1836, kept on making mechanical things all his life. He was the first one to work out the principles of the modern bicycle.

## BEDTIME STORY

## Uncle Wiggly and the Surprised Fox

(Copyright, 1920, by McClure Newspaper Syndicate)

By HOWARD R. GARIS

After supper Uncle Wiggly's little bunny boys and girls danced around the white stuffed rabbit on the lawn and sang songs. The White Rabbit, who was filled with cotton and sawdust, just sat there, never saying a word.

How could he? Answer me that, if you please. But wait. Something very surprising is going to happen.

"Tra, la, la!" sang Tingle and Tangle, Jingle and Jangle and all the other little bunnies. They danced around the white stuffed rabbit "Tra, la, la!"

Uncle Wiggly had found the white stuffed rabbit sitting on a green, grassy place in the woods and had brought the make-believe bunny home with him.

"For," said Uncle Wiggly, as I told you in the story last night, "some little boy or girl must have lost this toy stuffed rabbit in the woods and it's put him on my lawn they may pass and see him and then they will take him home."

"Buster was bad!"

So when it grew dark and it was time for Uncle Wiggly's little bunny boys and girls to go to bed, they stopped their singing and dancing around the stuffed rabbit, blew kisses to him from the tips of their paws and called:

"Good night, White Stuffed Rabbit!"

But the White Stuffed Rabbit answered never a word.

How could he? Answer me that, if you please. But wait. Something very surprising is going to happen.

So Uncle Wiggly counted the many pink, twinkling noses of his little bunny boys and girls to make sure all were in the bungalow. Then he looked at the door and they all went to sleep.

But as the night came down out of the sky and the wind blew through the trees, the stuffed rabbit still sat out on the green, grassy lawn in front of the hollow stump bungalow and looked straight ahead with his pink glass eyes.

Then all of a sudden the moon shone with alvery light through the trees and as soon as the first beams of moonlight touched the stuffed rabbit something surprising happened, as I told you it would.

"Dear me! How lonesome I am!" said the stuffed rabbit.

"There! You thought he couldn't talk. And I thought he couldn't talk. And Uncle Wiggly thought he couldn't talk."

But because there was something magical in the alvery light of the June moon, the stuffed rabbit could now speak. And he said again:

"Dear me! How lonesome I am!"

And no wonder! For there the poor stuffed rabbit was all alone out in the night sitting on Uncle Wiggly's lawn.

If Uncle Wiggly had known the stuffed rabbit was going to be lonesome I'm sure he would have taken the poor creature inside the bungalow.

"Oh, dear!" sighed the stuffed rabbit.

## To-morrow's Horoscope

WEDNESDAY, JUNE 26, 1920

Again a day of cross purposes is foretold by astrologers who read the horoscope, but benefic aspects dominate.

The morning is not conducive to balanced judgment or serene attitude of mind. Women may be easily irritated, especially by household annoyances.

Under this way both men and women may be restive and disposed to find fault, especially with weather conditions.

In many parts of the country periods of extraordinary heat and destructive storms are indicated.

Although this is not an especially fortunate rule for beginning sea voyages, it should be favorable for beach sojourns.

While this configuration prevails there is likely to be extreme optimism regarding one's finances, and courage to be extravagant.

Summer resorts of every kind should profit enormously, because of great armies of city dwellers who desert centres of population where epidemics prevail.

All the forecasts seem to favor newspapers and magazines, for there will be a mania for reading, astrologers predict.

Authors of the higher trend of thought will benefit in the next few months when the public mind will turn seriously toward needed reforms in private and public business methods.

The new moon of next month seems to promise important international agreements in which Britain and the United States will be united in new bonds of friendship.

The conjunction of Mars and Neptune has been read as presaging continued rule of crime in the United States and ineffectual attempts to stem the tide of evil.

Women's clubs are to engage in constructive civic work in many places, and one is to lead in a nation-wide reform, it is prognosticated.

Persons whose birthdate it is may experience changes in their careers or their positions. There may be many blessings in the new year.

Children born on this day are likely to be lovers of nature and proficient in outdoor sports. The subjects of this sign enjoy travel and usually journey far.

Lord Kelvin, famous astronomer, was born on this date, 1824.

bit. "I wish I was back in Ethel's house," Ethel was the name of the little girl who had left her toy stuffed rabbit in the woods where Uncle Wiggly had found it.

Then, all of a sudden, through the woods came slinking the Fuzzy Fox. Slyly he crept towards Uncle Wiggly's bungalow.

"For," said the Fox to himself, "it is such a bright, moonlight night that Uncle Wiggly may be sitting out on his front porch and he may fall asleep and then I could slink up and grab him!"

Now, when the Fox reached the bungalow he looked and saw the white, stuffed rabbit sitting on the lawn where the moonlight was very bright.

"Oh, ho," snickered the Fox. "There is a young, tender rabbit for me!" It isn't Uncle Wiggly, for it is too small. It must be one of his little bunnies who forgot to go in to bed. Well, so much the better for me!

With that the Fox made a jump and caught the white, stuffed rabbit in his teeth and away he ran with the toy, thinking it was a real rabbit. As for the stuffed rabbit, he was so surprised that he never said another word about being lonesome. Besides he was a lonesome any more, for he was with the Fox.

On through the woods ran the Fuzzy Fox, carrying the white rabbit and as he reached his den in the deep, dark dismal part of the woods, Mrs. Fox was looking out of the den door.

"Look here, Mrs. Fox!" called her husband. "I have brought home a lovely, tender white rabbit for our supper." He dropped the toy. His wife took one look at it, sniffed once or twice, laughed and said:

"Surprise on you, Mr. Fox! That's only a toy rabbit stuffed with cotton and sawdust! Surprise on you!"

"Well, what do you know about that!" growled the Fox and he gave the stuffed rabbit such a kick that it went flying through the air back to Uncle Wiggly's lawn again.

Now, if picture book will read a story to the radio before it goes to sleep, I'll tell you next about Uncle Wiggly and the little girl.

Bees and ants get intoxicated from the strong pollen of certain poisonous flowers and decaying fruit. A tipsy bee acts like a drunken man, reeling and stumbling all over, finally falling and going to sleep.

## Ferry Companies Plan For National Holidays

Dominion Day and Independence Day Coming in Same Week Will Mean Busy Days for Companies Operating Ships Between Victoria and the Mainland; C.P.R. Will Use Extra Night Steamers Between Victoria and Vancouver.

With the coming of Dominion Day, Canada's National holiday, and Independence Day, July 4, the national holiday in the United States, the greatest initial tourist rush of the summer season is expected to get under way over the coming week-end, and transportation companies are making preparations to handle record-breaking numbers of people from both sides of the line.

As the schools are closed for the long summer vacation and good weather is promised for the two holidays, it is expected that thousands will cross the line by way of the numerous ferry routes linking Victoria and Vancouver Island with the Mainland of Canada and the United States.

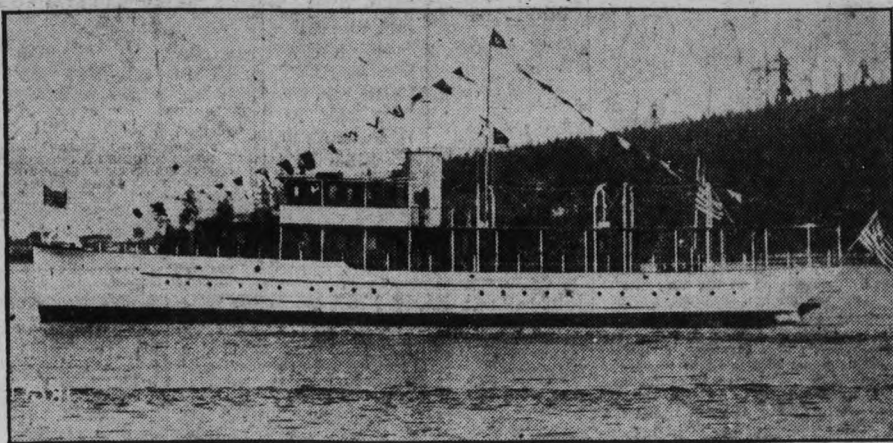

**EXTRA STEAMERS**  
The C.P.R. is making plans to operate extra night steamers between Victoria-Vancouver service to handle the holiday crowds. Although handicapped by extra boats on account of the mishap to the Princess Charlotte the Princess Norah will be in from the West Coast run over the week-end, and the Princess Louise in from Alaska, so that both these ships will be able to assist as extra steamers.

The Chamber and the Princess Elaine will maintain service on the Vancouver-Nanaimo run over the week-end. Large numbers of motorists come to Victoria by way of Nanaimo in order to take advantage of the famous Malahat Drive.

**NEW SERVICE**  
The newly inaugurated Sidney-Steveston run of the C.P.R. will have its test next week. Since commencing service on June 15 the Motor Princess has done a fair amount of business. The real tourist rush never commences, however, until after July 1, so that after that date it is expected the new route will be found popular with the motoring public.

The ferry company, City of Victoria, operating between this port and Edmonds will also do a record business over the week-end if people are traveling now anything like they did last season. The City of Victoria will make her usual two round trips, and her accommodation will probably be taxed to capacity. Operated by the Puget Sound Navigation Company, the ferry steamers Olympia, City of Bellingham and City of Angeles will carry motorists between Victoria and Port Angeles, Sidney and Bellingham and Anacortes respectively.

## Niagara To Sail Antipodes Bound To-morrow Night

Outbound to Honolulu, Suva, Auckland and Sydney, the Canadian-Australian liner Niagara will sail from the Richmond pier here early to-morrow evening with a seasonable passenger list and a capacity cargo of northwest products and overland freight.

According to present schedule the Niagara will sail from Vancouver at noon, and will dock here shortly after 5 o'clock in the afternoon. She will remain about three hours to pick up local passengers, cargo and mails before putting to sea en route to Honolulu, the first port of call on the three-week voyage to Sydney. She will reach the Hawaiian Islands port after a week's steaming. As usual Capt. T. V. Hill will be in charge of the ship.

### SAN FRANCISCO SHIPPING

San Francisco, June 25.—Three tank steamers totaling 33,260 deadweight tons, were purchased yesterday by the Richmond Oil Company for the off-shore and domestic trade. ## TWO PRESIDENT SHIPS ARE DUE

President Jefferson Sails Outbound Saturday; President Lincoln Due Monday

One inbound and the other outbound, two President liners of the American Mail Line will be in port here over the week-end, the outbound vessel on Saturday and the inbound ship on Monday.  
With a large passenger list for this season of the year, and a capacity cargo, the liner President Jefferson will sail from the Rithet Piers here on Saturday afternoon for ports in Japan, and the Philippine Islands. The Jefferson arrived here from the Orient, June 17.  
The Jefferson will sail from Seattle at 11 o'clock Saturday morning and with favorable tidal conditions in the Sound will dock here about 4 o'clock in the afternoon. She will remain two days before putting to sea en route to Yokohama, the first port of call on the Orient itinerary.  
Inbound from the Far East, the liner President Lincoln is expected to dock here early Monday morning. It is expected the ship will bring in a good sized list.

## TINY GIRL TOWS BODY TO SHORE

Twelve-year-old Swimmer Recovers Canoeist Drowned in Gorge Waters

An inquest on the death of sixteen-year-old John Moore, who was drowned in the waters of the Gorge last Wednesday, will be held to-morrow morning at 10 o'clock in McColl Bros. Funeral Parlors, Corner E. C. Hart stated this morning.  
The body was recovered shortly before 6 o'clock last night after five days in the water. Floating face downwards, it was seen by children swimming near Craighower Bridge and was towed to shore by Nellie Tait, twelve-year-old daughter of Mr. and Mrs. J. H. Tait, Admirals Road, Constable P. K. Cummings of the Saanich police attended the scene.  
Young Moore was the victim of this season's first drowning accident. It was the son of Mr. and Mrs. W. E. Moore, 2883 Innes Drive. He was a member of the Cowichan Boy Scouts and an employee of the delivery department of David Spencer Limited.  
John is survived by his parents and four sisters, Peggy, Audrey, Phyllis and Lois; his great-grandfather and great-grandmother, Mr. and Mrs. C. J. Nelson, and grandfather and grandmother, Mr. and Mrs. A. W. Switzer; his uncle and aunt, Mr. and Mrs. O. D. Moore of Longview, Wash.; uncle and aunt, Mr. and Mrs. J. C. Switzer of Victoria; two aunts and uncles in Winnipeg, Mr. and Mrs. McGagner and Mr. and Mrs. Hubner.

## WM. DUNBAR LAID TO REST

Hongkong Business Man Settled Here on Retirement

Funeral service for William Dunbar, 1602 Rockland Avenue, whose death occurred after a lengthy illness at the Jubilee Hospital, took place this afternoon from Hayward's B.C. Funeral Chapel, Rev. H. P. S. Luttrell officiating.  
The pallbearers were E. W. McMillan, H. G. Lawson, E. J. Mitchell, S. J. D. Clark, K. Heming and F. E. Winslow. Mr. Dunbar was formerly in business in Hongkong as an importer, but recently he turned his business over to his elder son. On retiring from business he traveled considerably before settling in Victoria.

## SEATTLE SHIPPING

Seattle, June 25.—The Tanana, Alaska Steamship Company freighter, will sail July 2 for southeastern and southwestern Alaska points in the canner trade. Return of the vessel to active service indicated that Alaskan business is reaching the peak of the season's production.  
Thirteen vessels are now in regular service for the company, including five passenger liners. The Alameda, with a capacity passenger list, will sail July 2 for southeastern points, and July 2 for southeastern points.

## LAKES DISCOVERED

Juneau, Alaska, June 25.—R. H. Sargent, topographer of the U.S. Geological Survey, accompanying the Naval Aerial Expedition, yesterday announced discovery of two chains of lakes in the central part of Baranof Island. They average from one to three miles long. The first chain consists of four lakes and the second of two lakes.  
One of the most famous glaciers is the Mer de Glace in the Alps. It is about 5700 feet above sea level.
